

The Shire of Corrigin seeks to efficiently provide a wide range of vital services to residents and visitors to our region. We are an equal opportunity employer committed to providing and maintaining an environmentally conscious, safe and healthy workplace for all employees and those who may be affected by our work operations. This commitment is consistently demonstrated through the behaviours of our management and employees at the workplace.

Responsibilities for addressing safety, health and environmental concerns are shared by everyone at the Shire of Corrigin. Our management representatives acknowledge specific responsibility for providing and maintaining a legislatively compliant working environment where persons at the workplace are not exposed to hazards and are provided with adequate resources, education and training to meet our safety, health and environmental obligations. Employees assist our management team to fulfil obligations through actively ensuring their own safety and that of others in the workplace.

All workers engaged with the Shire of Corrigin are required to report in a timely manner any incident, hazard or issues that are identified as posing a risk to health, safety or to the environment. These are promptly managed in accordance with the hierarchy of risk controls and accepted risk management principles.

At the Shire of Corrigin, we vigorously monitor our environmental impact and we are committed to continually improving our environmental performance through the prevention of pollution, efficient use of resources, waste minimisation, reuse and recycling practices. Our environmental intent is to ensure that our operations are conducted in a manner that contributes to the overall environmental sustainability of Australia.

We are proud of our excellent workplace safety and environmental record and are committed to continuously improving our workplace safety and health performance aimed at the elimination of workplace injury through the achievement of the specific targets and objectives which are documented in our Safety, Health and Environmental Management Plan.

Our Safety, Health and Environmental Management Plan is supported by a procedural framework intended to guide our employees and subcontractors to work safely and in an environmentally conscious manner including, but not limited to, compliance with all applicable legislative regulatory requirements, relevant Australian Standards and with all other requirements to which our organisation subscribes.

This Safety, Health and Environmental Policy and our supporting management systems documentation are regularly reviewed in line with continual improvement and occupational health and safety management system recommendations.
