FROM THE CEO

CORPORATE BOWLS

The Shire was pleased to provide two teams for the Corporate Bowls competition this year. We enjoyed the chance to meet new people and some friendly rivalry although I'm not sure that the bowling improved over the four weeks of the competition.

Congratulations to the Corrigin Bowling Club for hosting such a well organised and fun event. No-one seemed to laugh at bowls in the gutter, or with the wrong bias, and thank goodness my mistake didn't cost the winning team their place at the top of the leader board.

SHIRE TEAM

It has been a busy start to the year for Emily, Pippa and Tayla at the CRC and the newsletter is full of exciting opportunities.

Welcome to Caris Negri starting at Community Resource Centre (CRC) on Tuesday 12 March as CRC Co-ordinator while Emily takes Maternity Leave. Caris has worked in local government for many years at the Shire of Bruce Rock and we look forward to making the most of her skills and experience.

Despite the heat the parks and gardens around town are holding up well thanks to Paddy and his team. The oval is looking amazing and will be groomed further when the weather cools down.

Kyla and Kelly have the pool looking fantastic for the swimming carnival this week. Well done to the students that attended the

swimming carnival and those lucky enough to make it to the interschool carnival.

Out on the roads the construction crew have been focussing on reconstructing the floodways on Babakin Corrigin Road and re-sheeting Doyle Road.

Camm Street, part of Lynch Street and Drywell Road in town have been resealed. Once the construction work is completed the team will move across to road maintenance.

The footpath on Spanney and McAndrew Street is due to start in April.

Bird netting is being installed this weekend and hopefully it will deter the swallows from the CREC building.

MOBILE PHONE TOWER

I recently met with Boyd Brown from Telstra about the Automatic Transfer Unit (ATU) for a generator on the Corrigin mobile phone tower. Telstra advised that the batteries have been replaced which is expected to result in an increase in mobile phone coverage during a power outage over 24 hours.

The signal on the mobile tower is dependent on the connection to the Telstra exchange in Jose Street and an ATU has been connected to the Corrigin exchange. The battery reserve at the exchange is there is approximately 8 hours.

Changes to Telstra business structure and funding means that the installation of the ATU on the mobile phone tower has been delayed but is expected to be installed in the next few months.

CORRIGIN TOWNSITE MITIGATION WORKS

Please be aware that there will be mitigation works at the Corrigin Townsite and surrounding areas over the months of February, March and April 2024, depending on weather conditions.

Fire breaks will be made through the reserve to the west of town to allow fire fighters better access in the event of a fire. Forestry mulching will be conducted in areas containing high fuel load.

Corrigin VFRS as well as Corrigin BFB's will conduct controlled burns within the townsite to protect our community from any potential fires when weather conditions are suitable.

The community will be advised of the dates of the controlled burns closer to March.
