Closing Date and Time:	Thursday, 14 August 2025, 4.00pm		
Clarification register	<p>Keep a record of the number and summary of each clarification issued to all tenderers</p> <p>18 July 2025, BD Water, Jayson Esic Contacted ao@corrigin.wa.gov.au asking for the document as the website was showing an error when clicking on the Tender PDF link. Administration Officer fixed website issue and sent PDF to Jayson.</p> <p>18 July 2025, BD Water, Tristan Omoso Contacted works@corrigin.wa.gov.au to organize a site visit. A site visit was scheduled for Monday 21 July 2025. Michael from BD water attended the required visit.</p> <p>21 July 2025, New Ground Water Services, Mitch Greenacre Contacted the Shire Administration via phone to ask for a copy of the Original Irrigation. Administration Officer supplied him with the original copies of Appendix 1, which are much clearer.</p> <p>22 July 2025, New Ground Water Services, Simon Pascoe Contacted works@corrigin.wa.gov.au requesting a site visit for Tuesday 29 July. Paddy unavailable and requested Friday 1 August, and company agreed and will meet then.</p> <p>30 July 2025, Utilstra, Priyadarshan Udas Contact ao@corrigin.wa.gov.au expressing interest in the RFT and asked for documents relating. Sent the link to the tender on the Shire website, and provided the company with the original PDF copies of Appendix 1.</p>		

	<p>30 July 2025, BD Water, Jaydon Esic Administration officer sent original pdf copies to BD Water that are included in Appendix 1.</p> <p>30 July 2025, Think Water, Paul Good Emailed parks@corrigin.wa.gov.au with the following questions, Paddy replied on the same day. Answers to questions are in red. Administration Officer then forwarded questions and answers to all other companies on register. Regarding the Corrigin Playing Fields irrigation upgrade I just have a few queries – some of which are hopefully going to save some substantial costs</p> <ul style="list-style-type: none"> - Is there already 160mm sleeves under the roads (x2), if there is it will save approx. \$15,000 to get a driller down there – no sleeves under the road(s) - Does the mainline and/or laterals need to be purple pipe because its recycled water ? or will tape do -as per tender - as specified in tender - purple tape over top of all lines - main and laterals. - 160mm mainline poly is cheaper to buy than 150mm RRJ class 12 PVC, its also cheaper to install and it comes in 100m rolls (so less joins = less maintenance) – is poly mainline an option – as per tender - Thinkwater Perth specialises in playing field renovations, therefore we normally use a vibrating plough to install the laterals on the ovals. This allows our customers/clients to use the playing fields at the end of the work day. EG we would install ¼ oval during the day and you can hold footy/hockey practice on it in the evening, with NO trenches and need for lawn repair. Is poly laterals an option? As per tender - Had advice that the ground could possibly be too hard for the use of the “plough” machine but could possibly be put in as an alternative <p>31 July 2025, Watertorque, Jake Naylor Emailed works@corrigin.wa.gov.au expressing an interest for the tender. Site visit confirmed for 12pm on 1 August 2025. Administration Officer has sent all information above to Watertorque for their information.</p> <p>5 August 2025 Mitch New Ground Queried timing if not able to commit to the work in the specified timeframe. Answer: include installation/ construction dates in tender and it will be evaluated with other tenders that may comply with required dates.</p> <p>6 August 2025 Paul Thinkwater Contacted works@corrigin.wa.gov.au expressing interest in a site visit on Friday 8 August. Site visit was arranged with Paddy for 9am Friday 8 August</p>
