Objective: This policy aims to protect the interests of individual elected members and employees (including past members and former employees) where they become involved in civil legal proceedings because of their official functions. In most situations the Shire may assist the individual in meeting reasonable expenses and any liabilities incurred in relation to those proceedings.

There are four major criteria for determining whether the Shire of Corrigin will pay the legal representation costs of an elected member or employee. Including:

- d) the legal representation costs do not relate to a matter that is of a personal or private nature.

Legal Representation Costs that may be approved

If the criteria in clause 1 of this policy is satisfied, the Shire of Corrigin may approve the payment of legal representation costs –

- a) where proceedings are brought against a council member or employee in connection with his or her functions – for example, an action for defamation or negligence arising out of a decision made or action taken by the council member or employee; or

FINANCE POLICIES

2.1. RATES – PROCEDURE FOR UNPAID RATES

Policy Owner:	Corporate and Community Services
Person Responsible:	Finance Officer - Rates
Date of Approval:	31 March 1989
Amended:	21 April 2015; 16 October 2018, 21 April 2020

Objective: To provide guidelines and to prescribe the process for the collection of outstanding debts, recovery of rates and service charges and the charging of interest in relation to those debts.

Policy: The Shire of Corrigin will:

- take all appropriate action to ensure the maximum amount of rateable income is received in any one financial year;
- recover all outstanding debts, rates and service charges, utilising the relevant legislation and legal processes, in accordance with the *Local Government Act 1995* and *Civil Judgements Enforcement Act 2004*, and the Guidelines and Policy Procedures;
- have regard to individuals *Serious Hardship* and/or *Exceptional Hardship/Circumstances* relating to outstanding debts, rates and service charges, when administering this Policy, Guidelines and Policy Procedures; and
- consider all requests from person's experiencing difficulties with making payments for debts or rates and service charges. Such persons will be required to make a written application to the CEO to enter into a Negotiated Special Payment Arrangement, detailing their *Serious Hardship* and/or *Exceptional Hardship/Circumstances* to warrant consideration and leniency.

Definitions

In the administration of this policy, the following will apply:

Serious Hardship and/or *Exceptional Hardship/Circumstances* has no statutory definition in case law and will normally be at the discretion of the courts to decide if circumstances warrant leniency. However, many agencies use these terms when considering applications for leniency. In effect it can mean a level of hardship that will also impact on innocent parties.

Circumstances will vary in each situation, however there are common elements which can be considered by a statutory authority/local government. These can include (but not limited to) the following:

Serious Hardship

Serious Hardship exists when a person is unable to provide adequate food, accommodation, clothing, medical treatment, education or other necessities for themselves, their family or other people for whom they are responsible. (Source: Australian Taxation Office).

Consideration will be given as to whether a person's current financial difficulties are short term, when deciding whether a person is suffering Serious Hardship.

Financial Assets

There are several types of assets that are generally regarded as a normal and reasonable possession. A person is not expected to sell these to meet a payment. These assets include a motor vehicle and "tools of trade".

Also, a person will not be expected to use any cash on hand or in a bank balance which they need to meet the cost of their basic necessities, to pay a payment. If a person has assets such as rental property, shares or other investments, this may be regarded as having the capacity to make the payment, without suffering serious hardship.

Exceptional Hardship/Circumstances

These cover any unusual or exceptional circumstances that do not qualify as *Serious Hardship*, but make it fair and reasonable for a person not to make a payment at a specific time. If a person considers that there are other special reasons why they should not have to make their payment, they should specify these in writing to the CEO.

Some examples of what may constitute Exceptional Hardship/Circumstances include (but not limited to):

- a serious accident;
- sudden bereavement within a family;
- severe/life threatening illness or medical condition;
- an impact on a dependent or family member who has a serious disability or health problem and who relies on the affected person for their financial support; prolonged imprisonment;
- temporary physical or mental incapacity; or
- or any other matters considered acceptable by the CEO.

Exceptional Hardship/Circumstances are not limited to the above examples.

Note: The temporary loss of a job will not normally in itself qualify as *Exceptional Hardship* unless a convincing case can be put forward that the impact would be so exceptional as to warrant leniency such as a government direction to shut down or close a business due to the COVID-19 pandemic.

Negotiated Special Payment Arrangement (NSPA)

A Negotiated Special Payment Arrangement is a non-legal (but binding) arrangement between the Debtor/Ratepayer and the Shire of Corrigin, whereby the debt/outstanding money is progressively paid in agreed instalments over a period of time, by amounts that are mutually agreed between the two parties.

GUIDELINES AND PROCEDURES

Debt Recovery Process

The following process is to be followed for the recovery of rates and service charges. Legal proceedings will continue until outstanding rates and service charges are paid in full or otherwise determined by the CEO and/or the Council.

Final Notice

- Where the rates remain outstanding fourteen (14) days after the due date shown on the Annual Rates Notice and the ratepayer has not elected to pay by the instalment option, a Final Notice shall be issued requesting payment in full within fourteen (14) days.
- Eligible pensioners registered under the *Rates and Charges (Rebates and Deferments Act) 1992* are exempt as they are entitled to pay by the 30th June under the legislation.

Notice of Intention to Summons (Demand Letter)

- Rates remaining unpaid after the expiry date shown on the Final Notice will be examined for the purposes of issuing a Demand Letter (Notice of Intention to Summons).
- The Demand Letter is to be issued within sixty (60) days of the expiry date on the Final Notice and must specify that the ratepayer has fourteen (14) days to pay in full or alternatively enter into a special payment arrangement with the Shire of Corrigin.
- Failure to enter into an agreed payment arrangement will result in the debt being referred to a debt collection agency and a General Procedure Claim being issued without further notice.

General Procedure Claim

- Where a Demand Letter has been issued and remains unpaid and the ratepayer has not elected to enter into an agreed special payment arrangement, a General Procedure Claim will be issued.
- Legal costs and the costs of proceedings will be added to the ratepayers account upon issue of a General Procedure Claim, in accordance with Section 6.56 of the *Local Government Act 1995*.
- Ratepayers are required to pay in full or by instalments once they receive a General Procedure Claim. If they choose to pay by instalments, they must sign the *Admission of Claim* on the reverse of the General Procedure Claim and state the amount they agree to pay for each instalment. This Negotiated Special Payment Arrangement is subject to acceptance by the Manager Finance. A letter will be sent to the ratepayer to confirm this arrangement, if accepted.
- The signed *Admission of Claim* must be returned to the Shire of Corrigin for the Negotiated Special Payment Arrangement to be accepted.
- A person who is experiencing difficulty in making a payment, can apply to the Shire of Corrigin to make a Negotiated Special Payment Arrangement.
- When a ratepayer has elected to enter into Negotiated Special Payment Arrangement and instalments are not paid as per the arrangement or three consecutive payments are missed, a Default Letter will be issued for payment in full within fourteen (14) days. Rates remaining unpaid will be issued with a General Procedure Claim or the Shire of Corrigin may proceed straight to Enforcement, if a General Procedure Claim has previously been issued.

- Following the issue of a Claim and the addition of the costs of proceedings to the rates assessment, a reasonable offer to discharge a rate account will not be refused.
- If the General Procedure Claim is paid in full before entering into Judgement, then a Notice of Discontinuance (NOD) may be requested by the ratepayer and granted at the discretion of the CEO based on the circumstances of each case. The request must be received in writing and a NOD will only be issued to any one ratepayer once as a matter of goodwill. No further Notices of Discontinuance will be issued in any subsequent financial years to that same ratepayer, unless the Shire of Corrigin is advised circumstances.
- If a General Procedure Claim proceeds to Judgement and was not issued in error, then the matter will not be granted a Notice of Discontinuance, nor permission granted to have the matter set aside.

Non-Service of General Procedure Claim

- When a General Procedure Claim is unable to be served, the Bailiff may advise whether the property is a rental property or may provide an alternative address for the General Procedure Claim to be re-issued. In the case of a rental property, the Managing Agent will be contacted to ascertain the owner/s new residential address. If the Managing Agent is responsible for payment of rates, then a Rates Notice will be re-issued to the managing agent for payment in full within fourteen (14) days.
- If a new address is supplied for the owner/s of the property, the address will be recorded and a Rates Notice re-issued for payment within fourteen (14) days. If payment is not received, the General Procedure Claim will be re-issued to the new address.
- Where an owner resides in a property which cannot be accessed by the Bailiff or the property is vacant, a *skip trace* will be completed to verify the residential address of the owner. If required, a Substituted Service Claim can be filed at court to have the General Procedure Claim issued via post to the verified residential address of the owner.

Property Sale and Seizure Order

- Where a General Procedure Claim has been issued and served and the amount remains outstanding fourteen (14) days after the issue date of the Claim, legal proceedings will continue until payment of rates is received. This includes Judgement and Enforcement of the Claim. Enforcement of the Claim may include a Property Sale and Seizure Order of goods and or land.
- The Property Sale and Seizure Order is at first a Goods Order and if the Property Sale and Seizure Order is returned *Nulla Bona* (no goods), then a land warrant will be issued.
- If a Property Sale and Seizure Order against goods and or land is proposed to collect outstanding rates due on a property, the Council's prior approval shall be obtained before the Property Sale and Seizure Order is lodged.

Rates or Service Charges Recoverable in Court (Section 6.56)

- If a rate or service charge remains unpaid after it becomes due and payable, the local government may recover it, as well as the cost of proceedings, if any, for that recovery, in a court of appropriate jurisdiction.
- Rates or service charges due by the same person to the local government may be included in one writ, summons, or other process.

Seizure of Rent (Section 6.60)

In cases where the owner of a leased or rented property on which rates outstanding cannot be located, or refuses to settle rates owed, a Notice will be served on the lessee under the provisions of the *Local Government Act 1995* - Section 6.60, requiring the lessee to pay to the Shire of Corrigin the rent due under the lease/tenancy agreement as it becomes due, until the amount in arrears has been fully paid.

These Guidelines and Policy Procedures will apply to all those invoices raised in respect of non-rates and service charges debtors.

It is acknowledged that the terms of payment for each invoice may vary depending on the goods or service rendered to the debtor.

If the invoice is not paid by the due date then the following procedure will take place:

Amended:	16 October 2018, 21 April 2020

Objective: The purpose of this policy is to provide guidance to Council in determining efficient, effective and economical procedures for debt collection.

This is achieved through manageable and efficient control over overdue accounts by closely monitoring aged accounts in an attempt to reduce the likely occurrence of unrecoverable debts and to ensure consistency for all debt collection activities

Policy:

Debt Management

Invoices for goods or service rendered to the debtor are usually due 30 days after the date of invoice unless specific regulations apply or application for special payment arrangement has been approved.

Invoicing

A debt is created when the service is provided or when the invoice is created; whichever occurs first. Unless there is regulation or accepted practice to the contrary, an invoice should be produced and payment requested at the time, or in advance, of the service being provided. This practice reduces the risk of non-payment. It is recognised that there will be instances where invoicing and payment in advance is not practicable.

Invoices will detail payment terms and that interest may apply to accounts that are outstanding for 60 days and over. Interest will not apply to invoices generated in relation to unpaid grants.

If the invoice is not paid within 60 days of the due date then the following will apply:

Recovery Procedure

- A Statement will be sent at the end of the month advising the debtor that the account is due for payment.
- If the debt remains outstanding after 60 days a Reminder Notice will be issued advising the debtor to contact the Shire of Corrigin if they wish to dispute or query the invoice otherwise payment is expected within 14 days of the issue date of the letter.
- If no response is received from the debtor and the debt remaining after 90 days then a Demand Notice will be sent to the debtor advising that if payment is not made within 14 days of the date of the notice, then further action may be taken to recover the debt. The debtor will be advised that any additional fees incurred in recovering the debt will be passed on to the debtor.
- If there is still no response received from the debtor in response to the Notice of Demand, the debt may be sent to the debt collection agency. A demand notice may not be sent in relation to unpaid grants. However, further reminder notices should continue to be sent.

A record shall be kept of all attempts to contact the debtor, whether successful or unsuccessful.

Application for Special Payment Arrangement

Debtors experiencing difficulties in paying their debts by the specified due date can apply to the Shire of Corrigin to enter into a Negotiated Special Payment Arrangement.

Write-Off

Once all reasonable attempts to either locate the debtor or to obtain payment have failed, or the cost of recovery exceeds the debt amount the Finance Officer will submit a written request to the Chief Executive Officer for the invoice to be considered for write off.

Approval will be sought from the Chief Executive Officer and subsequently Council (if required) for approval for the debt to be written off. Once approval has been received, the appropriate entries will be made in the debtors system.

Debt Raised in Error or Debt Adjustment

In the event that an invoice has been raised in error, the Finance Officer will complete a request to raise invoice or request to raise credit note as required to correct the error detailing the reason for the error and supply supporting documentation. This is to be authorised by the Chief Executive Officer or Deputy Chief Executive Officer.

Other Action Which May be Taken

The following list of actions may also be instituted at the discretion of the Chief Executive Officer, against defaulting sundry debtors, who do not respond to normal requests for payment:

- Rescind any seasonal hall/reserve booking licence (if applicable).
- Refuse further hire of facilities, private works, etc.
- Request up-front bonds for future dealings with the Shire of Corrigin, which may be used to offset against the outstanding debt.
- Offset of any Shire of Corrigin contributions owing to the personal entity against, any outstanding debt.
- Report the matter to Council to consider cancellation of a Lease Agreement (if applicable).

Amended:	15 December 2016, 17 October 2017, 20 February 2018; 16 October 2018, 19 May 2020

Policy: The Shire of Corrigin (the “**Shire**”) is committed to delivering best practice in the purchasing of goods, services and works that align with the principles of transparency, probity and good governance and complies with the *Local Government Act 1995* (the “**Act**”) and Part 4 of the *Local Government (Functions and General) Regulations 1996*, (the “**Regulations**”) Procurement processes and practices to be complied with are defined within this policy and the Shire’s prescribed procurement procedures.

1 OBJECTIVES

The objectives of this Policy are to ensure that all purchasing activities:

- demonstrate that best value for money is attained for the Shire;
- are compliant with relevant legislations, including the Act and Regulations;
- are recorded in compliance with the State Records Act 2000 and associated records management practices and procedures of the Shire;
- mitigate probity risk, by establishing consistent and demonstrated processes that promotes openness, transparency, fairness and equity to all potential suppliers;
- ensure that the sustainable benefits, such as environmental, social and local economic factors are considered in the overall value for money assessment; and
- are conducted in a consistent and efficient manner across the Shire and that ethical decision making is demonstrated.

2 ETHICS AND INTEGRITY

2.1 Code of Conduct

All officers and employees of the Shire undertaking purchasing activities must have regard for the Code of Conduct requirements and shall observe the highest standards of ethics and integrity. All officers and employees of the Shire must act in an honest and professional manner at all times which supports the standing of the Shire.

2.2 Purchasing Principles

The following principles, standards and behaviours must be observed and enforced through all stages of the purchasing process to ensure the fair and equitable treatment of all parties:

- full accountability shall be taken for all purchasing decisions and the efficient, effective and proper expenditure of public monies based on achieving value for money;

- purchasing is to be undertaken on a competitive basis where all potential suppliers are treated impartially, honestly and consistently;

- any actual or perceived conflicts of interest are to be identified, disclosed and appropriately managed; and

- any information provided to the Shire's by a supplier shall be treated as commercial-in-confidence and should not be released unless authorised by the supplier or relevant legislation.

3 VALUE FOR MONEY

3.1 Policy

Value for money is determined when the consideration of price, risk and qualitative factors that are assessed to determine the most advantageous outcome to be achieved for the Shire.

As such, purchasing decisions must be made with greater consideration than obtaining lowest price, but also to incorporate qualitative and risk factors into the decision.

3.2 Application

An assessment of the best value for money outcome for any purchasing process should consider:

- all relevant Total Costs of Ownership (TCO) and benefits including transaction costs associated with acquisition, delivery, distribution, as well as other costs such as but not limited to holding costs, consumables, deployment, maintenance and disposal;
- the technical merits of the goods or services being offered in terms of compliance with specifications, contractual terms and conditions and any relevant methods of assuring quality, including but not limited to an assessment of levels and currency of compliances, value adds offered, warranties, guarantees, repair and replacement policies, ease of inspection, ease of after sales service, ease of communications etc.
- financial viability and capacity to supply without risk of default (competency of the prospective suppliers in terms of managerial and technical capabilities and compliance history);
- a strong element of competition in the allocation of orders or the awarding of contracts. This is achieved by obtaining a sufficient number of competitive quotations wherever practicable;
- the safety requirements associated with both the product design and specification offered by suppliers and the evaluation of risk when considering purchasing goods and services from suppliers;
- purchasing of goods and services from suppliers that demonstrate sustainable benefits and good corporate social responsibility; and
- providing opportunities for businesses within the Shire's boundaries to be given the opportunity to quote for providing goods and services wherever possible.

4 PURCHASING REQUIREMENTS

4.1 Legislative / Regulatory Requirements

The requirements that must be complied with by the Shire, including purchasing thresholds and processes, are prescribed within the Regulations, this Policy and associated purchasing procedures in effect at the Shire.

Policy

Purchasing that is **\$250,000 or below in total value** (excluding GST) must be in accordance with the purchasing requirements under the relevant threshold as defined under section 0 of this Purchasing Policy.

Purchasing that **exceeds \$250,000 in total value** (excluding GST) must be put to public Tender when it is determined that a regulatory Tender exemption, as stated under 4.5 of this Policy is not deemed to be suitable.

4.2 Purchasing Value Definition

Determining purchasing value is to be based on the following considerations:

1. Exclusive of Goods and Services Tax (GST);
2. The actual or expected value of a contract over the full contract period, including all options to extend; or the extent to which it could be reasonably expected that the Shire will continue to purchase a particular category of goods, services or works and what total value is or could be reasonably expected to be purchased. A best practice suggestion is that if a purchasing threshold is reached within three years for a particular category of goods, services or works, then the purchasing requirement under the relevant threshold (including the tender threshold) must apply.
3. Must incorporate any variation to the scope of the purchase and be limited to a 10% tolerance of the original purchasing value.

4.3 Purchasing from Existing Contracts

Where the Shire has an existing contract in place, it must ensure that goods and services required are purchased under these contracts to the extent that the scope of the contract allows. When planning the purchase, the Shire must consult its Contracts Register in the first instance before seeking to obtain quotes and tenders on its own accord.

4.4 Purchasing Thresholds

The table below prescribes the purchasing process that the Shire must follow, based on the purchase value:

Purchase Value Threshold	Purchasing Requirement
Up to \$5,000	Purchase directly from a supplier using a Purchase Order or credit card issued by the Shire or obtain at least one (1) oral or written quotation from a suitable supplier, either from: <ul style="list-style-type: none"> • an existing panel of pre-qualified suppliers administered by the Shire; or • a pre-qualified supplier on the WALGA Preferred Supply Program or State Government Common Use Arrangement (CUA); or • from the open market. • Where the purchase is of an urgent or emergency nature the purchase is permitted without a quote.
Over \$5,000 and up to \$50,000	Obtain at least two (2) written quotations from suppliers following a brief outlining the specified requirement, either from: <ul style="list-style-type: none"> • an existing panel of pre-qualified suppliers administered by the Shire; or • from the open market. <p style="text-align: center;">Or</p> Obtain at least one (1) written quotation from a pre-qualified supplier on the WALGA Preferred Supply Program or State Government CUA.

	Where the purchase is of an urgent or emergency nature the purchase is permitted without undertaking the quotation process.
Purchase Value Threshold	Purchasing Requirement
Over \$50,000 and up to \$250,000	<p>Obtain at least three (3) written quotations from suppliers by formal invitation under a Request for Quotation, containing price and detailed specification of goods and services required. The procurement decision is to be based on pre-determined evaluation criteria that assesses all value for money considerations in accordance with the definition stated within this Policy.</p> <p>Quotations within this threshold may be obtained from:</p> <ul style="list-style-type: none"> • an existing panel of pre-qualified suppliers administered by the Shire; or • a pre-qualified supplier on the WALGA Preferred Supply Program or State Government CUA; or • from the open market. <p>Requests for quotation from a pre-qualified panel of suppliers (whether administered by the Shire through the WALGA preferred supply program or State Government CUA) are not required to be invited using a Request for Quotation form, however at least three written quotes are still required to be obtained.</p>
Over \$250,000	Where the purchasing requirement is not suitable to be met through a panel of pre-qualified suppliers, or any other tender-exempt arrangement as listed in this Policy, conduct a public Request for Tender process in accordance with Part 4 of the <i>Local Government (Functions and General) Regulations 1996</i> , this policy and the Shire's tender procedures. The procurement decision is to be based on pre-determined evaluation criteria that assesses all value for money considerations in accordance with the definition stated within this Policy.
Emergency Purchases (Within Budget)	<p>Where goods or services are required for an emergency response and are within scope of an established Panel of Pre-qualified Supplier or existing contract, the emergency supply must be obtained from the Panel or existing contract using relevant unallocated budgeted funds.</p> <p>Where due to the urgency of the situation; a contracted or tender exempt supplier is unable to provide the emergency supply <u>OR</u> compliance with this Purchasing Policy would cause unreasonable delay, the supply may be obtained from any supplier capable of providing the emergency supply. An emergency supply is only to be obtained to the extent necessary to facilitate the urgent emergency response and must be</p>

	<p>subject to due consideration of best value and sustainable practice.</p> <p>The rationale for policy non-compliance and the purchasing decision must be evidenced in accordance with the Shire of Corrigin Record Keeping Plan.</p>
<p>Emergency Purchases (No budget allocation available)</p>	<p>Where no relevant budget allocation is available for an emergency purchasing activity then, in accordance with s.6.8 of the <i>Local Government Act 1995</i>, the President must authorise, in writing, the necessary budget adjustment prior to the expense being incurred.</p> <p>The CEO is responsible for ensuring that an authorised emergency expenditure under s.6.8 is reported to the next ordinary Council Meeting.</p> <p>The Purchasing Practices prescribed for Emergency Purchases (within budget) above, then apply.</p>
<p>LGIS Services Section 9.58(6)(b) Local Government Act</p>	<p>The suite of LGIS insurances are established in accordance with s.9.58(6)(b) of the <i>Local Government Act 1995</i> and are provided as part of a mutual, where WALGA Member Local Governments are the owners of LGIS. Therefore, obtaining LGIS insurance services is available as a member-base service and is not defined as a purchasing activity subject to this Policy.</p> <p>Should Council resolve to seek quotations from alternative insurance suppliers, compliance with this Policy is required.</p>

4.5 Tendering Exemptions

An exemption to publicly invite tenders may apply in the following instances:

- the purchase is obtained from a pre-qualified supplier under the WALGA Preferred Supply Program or State Government Common Use Arrangement.
- the purchase is from a Regional Local Government or another Local Government;
- the purchase is acquired from an Australian Disability Enterprise and represents value for money;
- the purchase is from a pre-qualified supplier under a Panel established by the Shire; or
- any of the other exclusions under Regulation 11 of the Regulations apply.
- the purchase is acquired from a person registered on the WA Aboriginal Business Directory, as published by the Small Business Development Corporation, where the consideration under contract is worth \$250,000 or less and represents value for money;
- an emergency situation as defined by the Local Government Act 1995;
- the purchase is from a Department of Finance Common Use Arrangements (where Local Government use is permitted), a Regional Local Government or another Local Government;
- the purchase is under auction that has been authorised by Council;
- the contract is for petrol, oil, or other liquid or gas used for internal combustion engines; or

4.6 Inviting Tenders Under the Tender Threshold

Where considered appropriate and beneficial, the Shire may consider publicly advertising Tenders in lieu of undertaking a Request for Quotation for purchases under the tender threshold. This decision should be made after considering the benefits of

this approach in comparison with the costs, risks, timeliness and compliance requirements and also whether the purchasing requirement can be met through the WALGA Preferred Supply Program or State Government CUA.

If a decision is made to undertake a public Tender for contracts expected to be \$250,000 or less in value, the Shire's tendering procedures must be followed in full.

4.7 Expressions of Interest

Expressions of Interest (EOI) will be considered as a prerequisite to a tender process (Functions and General Regulation 21) where the required supply evidences one or more of the following criteria:

- (a) Unable to sufficiently scope or specify the requirement;
- (b) There is significant variability for how the requirement may be met;
- (c) There is potential for suppliers to offer unique solutions and / or multiple options for how the purchasing requirement may be obtained, specified, created or delivered;
- (d) Subject to a creative element; or
- (e) Provides a procurement methodology that allows for the assessment of a significant number of potential tenderers leading to a shortlisting process based on non-price assessment.

All EOI processes will be based upon qualitative and other non-price information only.

4.8 Unique Nature of Supply / Sole Source of Supply

Where the purchasing requirement is over the value of \$5,000 and of a unique nature that can only be supplied from one supplier, the purchase is permitted without undertaking a tender or quotation process. This is only permitted in circumstances where the Shire is satisfied and can evidence that there is only one source of supply for those goods, services or works. The Shire must use its best endeavours to determine if the sole source of supply is genuine by exploring if there are any alternative sources of supply. Once determined, the justification must be referenced on the Purchase Order prior to a contract being entered into.

From time to time, the Shire may publicly invite an expression of interest to effectively determine that one sole source of supply still genuinely exists.

4.9 Anti-Avoidance

The Shire shall not enter into two or more contracts or create multiple purchase order transactions of a similar nature for the purpose of "splitting" the value of the purchase or contract to take the value of the consideration of the purchase below a particular purchasing threshold, particularly in relation to Tenders and to avoid the need to call a public Tender.

4.10 Emergency Purchases

An emergency purchase is defined as an unanticipated and unbudgeted purchase which is required in response to an emergency situation, or imminent risk to public safety to protect or make safe property of infrastructure assets, as provided for in the *Local Government Act 1995*. In such instances, quotes and tenders are not required to be obtained prior to the purchase being undertaken.

An emergency purchase does not relate to purchases not planned for due to time constraints. Every effort must be made to anticipate purchases required by the Shire in advance and to allow sufficient time to obtain quotes and tenders, whichever may apply.

A State of Emergency declared under the Emergency Management Act 2005 and therefore, Functions and General Regulations 11(2)(aa), (ja) and (3) apply to vary the application of this policy.

4.11 Contract Renewals, Extensions and Variations

Where a contract has been entered into as the result of a publicly invited tender process, then Functions and General Regulation 21A applies.

For any other contract, the contract must not be varied unless

- (a) The variation is necessary in order for the goods or services to be supplied and does not change the scope of the contract; or
- (b) The variation is a renewal or extension of the term of the contract where the extension or renewal options were included in the original contract.

Upon expiry of the original contract, and after any options for renewal or extension included in the original contract have been exercised, the Shire/Town/City is required to review the purchasing requirements and commence a new competitive purchasing process in accordance with this Policy

A decision to approve a contract variation must be made by Council resolution, unless within the *Functions and General Regulations 20 and / or 21A* delegated authority of the CEO.

5 RECORDS MANAGEMENT

Records of all purchasing activity must be retained in compliance with the *State Records Act 2000 (WA)*, the Shire's Records Management Policy and associated procurement procedures.

For each procurement activity, such documents may include:

- The Procurement initiation document such as a procurement business case which justifies the need for a contract to be created (where applicable);
- Procurement Planning and approval documentation which describes how the procurement is to be undertaken to create and manage the contract;
- Request for Quotation/Tender documentation;
- Copy of public advertisement inviting tenders, or the notice of private invitation (whichever is applicable);
- Copies of quotes/tenders received;
- Evaluation documentation, including individual evaluators note and clarifications sought;
- Negotiation documents such as negotiation plans and negotiation logs;
- Approval of award documentation;
- All correspondence to respondents notifying of the outcome to award a contract;
- Contract Management Plans which describes how the contract will be managed; and
- Copies of contract(s) with supplier(s) formed from the procurement process.

6 SUSTAINABLE PROCUREMENT AND CORPORATE SOCIAL RESPONSIBILITY

The Shire is committed to providing a preference to suppliers that demonstrate sustainable business practices and high levels of corporate social responsibility (CSR).

Where appropriate, the Shire shall endeavour to provide an advantage to suppliers demonstrating that they minimise environmental and negative social impacts and embrace CSR. Sustainable and CSR considerations must be balanced against value for money outcomes in accordance with the Shire's sustainability objectives.

7 BUY LOCAL POLICY

As much as practicable, the Shire must:

- where appropriate, consider buying practices, procedures and specifications that do not unfairly disadvantage local businesses;
- consider indirect benefits that have flow on benefits for local suppliers (i.e. servicing and support);

- ensure that procurement plans address local business capability and local content;
- explore the capability of local businesses to meet requirements and ensure that Requests for Quotation and Tenders are designed to accommodate the capabilities of local businesses;
- avoid bias in the design and specifications for Requests for Quotation and Tenders – all Requests must be structured to encourage local businesses to bid; and
- provide adequate and consistent information to potential suppliers.

To this extent, a qualitative weighting may be afforded in the evaluation of quotes and tenders where suppliers are located within the boundaries of the Shire, or substantially demonstrate a benefit or contribution to the local economy.

A regional price preference may be afforded to locally based businesses for the purposes of assessment. Provisions are detailed within Council's Policy 2.11 *Regional Price Preference*.

8 EXEMPTIONS

The following exemptions to the Purchasing Thresholds and Processes apply:

- Live Shows, Artistic Performances, Digital Movies: For the procurement of live shows, artistic performances and digital movies a purchase order is required to be raised, however, only one quotation needs to be obtained due to there being only one supplier.
- Insurance (LGIS) brokers, utilities and the like: For the procurement of Insurance (LGIS) brokerage and utilities normally only one supplier is available.
- Staff Corporate Uniforms: The staff corporate uniform is exempt from seeking quotations.
- All Freight: All freight is exempt from seeking quotations but where possible attain the best price for the best required freight service.
- Travel/Airfares: The procurement of airfares for travel purposes is exempt from seeking quotations but the Shire must be equitable in procuring this service from all local travel suppliers if and when the pricing is comparable.
- Staff Housing (Leasing of Property): Leasing property for the purpose of providing staff housing is exempt from seeking quotations but the Shire must be equitable in procuring this service from all local suppliers if and when the pricing is comparable, taking into consideration what housing is required to accommodate staff needs and what is available on the rental market at that time.
- Souvenirs and Tourism Merchandise For the procurement of souvenirs and tourism merchandise for on sale at the Shire office or Resource Centre, these items will be exempt from seeking quotations provided the quality of the merchandise is proven or known.
- Subscriptions

The list of individualised purchases from local suppliers below are exempt from quotations but purchases need to be alternated between those local suppliers in respect to each individualised purchases. Comparing price, quality and service factors must be taken into account; should purchase items be of the same quality and service, then the lowest priced local supplier should be engaged for the purchase:

- Newspapers, books and periodical deliveries purchased locally for in-house provision and for the Shire are exempt from seeking quotations.
- Catering of Food Catering of food from local suppliers for in-house meetings (not external meetings or events) are exempt from seeking quotations.
- Catering of alcoholic and non-alcoholic drinks including milk and water from local suppliers for in-house provision and for Shire events/functions are exempt from seeking quotations.

- Stationery items

9 PURCHASING FROM DISABILITY ENTERPRISES

Functions and General Regulation 11(2)(i) provides a tender exemption if the goods or services are supplied by an Australian Disability Enterprise.

The Shire of Corrigin will first consider undertaking a quotation process with other suppliers (which may include other Australian Disability Enterprises) to determine overall value for money for the shire.

Where the Shire of Corrigin makes a determination to contract directly with an Australian Disability Enterprise for any amount, including an amount over the Tender threshold of \$250,000 (ex GST), it must be satisfied through alternative means that the offer truly represents value for money.

If the contract value exceeds \$50,000 (ex GST), a formal Request for Quotation will be issued to the relevant Aboriginal business. The rationale for making the purchasing decision must be recorded in accordance with the Shire of Corrigin Record Keeping Plan.

A qualitative weighting may be afforded in the evaluation of quotes and tenders to provide advantages to Australian Disability Enterprises.

10 PANELS OF PRE-QUALIFIED SUPPLIERS

10.1 Policy Objectives

In accordance with Regulation 24AC of the *Local Government (Functions and General) Regulations 1996*, a Panel of Pre-qualified Suppliers ("Panel") may be created where most of the following factors apply:

- the Shire determines that a range of similar goods and services are required to be purchased on a continuing and regular basis;
- there are numerous potential suppliers in the local and regional procurement-related market sector(s) that satisfy the value for money test;
- the purchasing activity under the intended Panel is assessed as being of a low to medium risk;
- the Panel will streamline and will improve procurement processes; and
- the Shire has the capability to establish, manage the risks and achieve the benefits expected of the proposed Panel.

The Shire will endeavour to ensure that Panels will not be created unless most of the above factors are firmly and quantifiably established.

10.2 Establishing a Panel

Should the Shire determine that a Panel is beneficial to be created, it must do so in accordance with Part 4, Division 3 the *Local Government (Functions and General) Regulations 1996*. Panels may be established for one supply requirement, or a number of similar supply requirements under defined categories within the Panel.

Panels may be established for a minimum of two (2) years and for a maximum length of time deemed appropriate by the Shire. Evaluation criteria must be determined and communicated in the application process by which applications will be assessed and accepted.

Where a Panel is to be established, the Shire will endeavour to appoint at least three (3) suppliers to each category, on the basis that best value for money is demonstrated. Where less than three (3) suppliers are appointed to each category within the Panel, the category is not to be established.

In each invitation to apply to become a pre-qualified supplier (through a procurement process advertised through a state-wide notice), the Shire must state the expected number of suppliers it intends to put on the panel. Should a Panel member leave the Panel, they may be replaced by the next ranked Panel member determined in the value for money assessment should the supplier agree to do so, with this intention to be disclosed in the detailed information set out under Regulation 24AD(5)(d) and (e) when establishing the Panel.

10.3 Distributing Work Amongst Panel Members

To satisfy Regulation 24AD(5) of the Regulations, when establishing a Panel of pre-qualified suppliers, the detailed information associated with each invitation to apply to join the Panel must either prescribe whether the Shire intends to:

- i. Obtain quotations from each pre-qualified supplier on the Panel with respect to all purchases, in accordance with Clause 0; or
- ii. Purchase goods and services exclusively from any pre-qualified supplier appointed to that Panel, and under what circumstances; or
- iii. Develop a ranking system for selection to the Panel, with work awarded in accordance with Clause 0(b).

In considering the distribution of work among Panel members, the detailed information must also prescribe whether:

- a) each Panel member will have the opportunity to bid for each item of work under the Panel, with pre-determined evaluation criteria forming part of the invitation to quote to assess the suitability of the supplier for particular items of work. Contracts under the pre-qualified panel will be awarded on the basis of value for money in every instance; or
- b) work will be awarded on a ranked basis, which is to be stipulated in the detailed information set out under Regulation 24AD (5) (f) when establishing the Panel. The Shire is to invite the highest ranked Panel member, who is to give written notice as to whether to accept the offer for the work to be undertaken. Should the offer be declined, an invitation to the next ranked Panel member is to be made and so forth until a Panel member accepts a Contract. Should the list of Panel members invited be exhausted with no Panel member accepting the offer to provide goods/services under the Panel, the Shire may then invite suppliers that are not pre-qualified under the Panel, in accordance with the Purchasing Thresholds stated in section 5.5 of this Policy. When a ranking system is established, the Panel must not operate for a period exceeding 12 months.

In every instance, a contract must not be formed with a pre-qualified supplier for an item of work beyond 12 months, which includes options to extend the contract.

10.4 Purchasing from the Panel

The invitation to apply to be considered to join a panel of pre-qualified suppliers must state whether quotations are either to be invited to every member (within each category, if applicable) of the Panel for each purchasing requirement, whether a ranking system is to be established, or otherwise.

Each quotation process, including the invitation to quote, communications with panel members, quotations received, evaluation of quotes and notification of award communications must all be made through eQuotes, or any other electronic quotation facility.

10.5 Recordkeeping

Records of all communications with Panel members, with respect to the quotation process and all subsequent purchases made through the Panel, must be kept.

For the creation of a Panel, this includes:

- The Procurement initiation document such as a procurement business case which justifies the need for a Panel to be created;
- Procurement Planning and approval documentation which describes how the procurement is to be undertaken to create and manage the Panel;
- Request for Applications documentation;
- Copy of public advertisement inviting applications;
- Copies of applications received;
- Evaluation documentation, including clarifications sought;
- Negotiation documents such as negotiation plans and negotiation logs;
- Approval of award documentation;
- All correspondence to applicants notifying of the establishment and composition of the Panel such as award letters;
- Contract Management Plans which describes how the contract will be managed; and
- Copies of framework agreements entered into with pre-qualified suppliers.

The Shire is also to retain itemised records of all requests for quotation, including quotations received from pre-qualified suppliers and contracts awarded to Panel members. A unique reference number shall be applied to all records relating to each quotation process, which is to also be quoted on each purchase order issued under the Contract.

Information with regards to the Panel offerings, including details of suppliers appointed to the Panel, must be kept up to date, consistent and made available for access by all officers and employees of the Shire.

11 PURCHASING POLICY NON COMPLIANCE

The Purchasing Policy is mandated under the Local Government Act 1995 and Regulation 11A of the Local Government (Functions and General) Regulations 1996 and therefore the policy forms part of the legislative framework in which the Local Government is required to conduct business.

Where legislative or policy compliance is not reasonably able to be achieved, records must evidence the rationale and decision making processes that substantiate the non-compliance.

Purchasing activities are subject to internal and external financial and performance audits, which examine compliance with legislative requirements and the Shire of Corrigin policies and procedures.

If non-compliance with; legislation, this Purchasing Policy or the Code of Conduct, is identified it must be reported to the Chief Executive officer or the Deputy Chief Executive Officer. A failure to comply with legislation or policy requirements, including compliance with the Code of Conduct when undertaking purchasing activities, may be subject to investigation, with findings to be considered in context of the responsible person's training, experience, seniority and reasonable expectations for performance of their role.

Where a breach is substantiated it may be treated as:

- (a) an opportunity for additional training to be provided;
- (b) a disciplinary matter, which may or may not be subject to reporting requirements under the Public Sector Management Act 1994; or
- (c) where the breach is also identified as potentially serious misconduct, the matter will be reported in accordance with the Corruption, Crime and Misconduct Act 2003.

2.10. REGIONAL PRICE PREFERENCE POLICY

Policy Owner:	Corporate and Community Services
Person Responsible:	Deputy Chief Executive Officer, Manager Finance
Date of Approval:	21 June 2016
Amended:	17 October 2017

Objective: To stimulate economic activity and growth in the Shire by maximising the use of competitive local businesses in supplying goods, services and works purchased or contracted on behalf of the Shire of Corrigin (the 'Shire').

Legislative Requirements:

This policy sets out the requirements that must be complied with by the Shire for the implementation and application of a regional price preference when purchasing goods and/or services through a tender process. The policy is compliant with the *Local Government (Functions and General) Regulations 1996*, as the relevant legislation.

Policy:

A price preference will apply to suppliers who are based in, operate from or source goods or services from within the Shire Region in relation to all tenders invited by the Shire for the supply of goods, services and construction (building) services, unless the tender document specifically states prior to advertising of the tender that this policy does not apply.

The regional price preference enables tenders to be evaluated as if the proposed tender bid price were reduced in accordance with permitted price preferences as specified below in this policy. This policy will operate in conjunction with the purchasing considerations and procedures for tenders as outlined in the Shire's 'Purchasing Policy' when evaluating and awarding tender contracts.

Qualifying Criteria:

Regional Tenderer

A supplier of goods or services who submits a tender is regarded as being a regional tenderer if:

- a) that supplier has been operating a business continuously out of premises in the Region for at least six months before the time after which further tenders cannot be submitted. This is further defined as follows and the supplier will be required to meet all of these criteria:
 - i. the supplier to have a physical business premises (in the form of an office, depot, shop, outlet, headquarters or other premises where goods or services are being supplied from), located in the Region. This does not exclude suppliers whose registered business is located outside the Region but undertake the business from premises located in the Region;
 - ii. the physical location of the business premises in the Region has been operating on an ongoing basis for more than six months prior to the closing date for the tender;
 - iii. a business having permanent staff that are based at the business premises located in the Region;
 - iv. management or delivery of the majority of the tendered outcomes will be carried out from the business premises located in the Region; and
 - v. the business being registered or licensed in Western Australia; or
- b) some or all of the goods or services are to be supplied from regional sources. Goods and/or services that form a part of a tender submitted may be wholly supplied from regional sources; or partly supplied from regional sources, and partly

supplied from non-regional sources. Only those goods or services identified in the tender as being from regional sources may be included in the discounted calculations that form a part of the assessments of a tender when the regional price preference policy is in operation.

In order for the policy to apply, the tenderer is required to provide to the Shire written evidence within the tender submission which demonstrates compliance with the above criteria. Tenderers who claim that they will use goods, materials or services supplied from regional sources in the delivery of the contract outcomes will be required, as part of the contract conditions, to demonstrate that they have actually used them.

Regional Price Preference Categories

The following levels of regional price preference will be applied (where relevant) to tenders received from a regional tenderer, as outlined above under this policy:

- ***Where the contract is for goods and services:*** Up to a 10% price preference (to a maximum price reduction of \$50,000 excluding GST) where goods and services are sourced from within the Shire Region.
- ***Where the contract is for construction (building) services:*** Up to a 5% price preference (up to a maximum price reduction of \$50,000 excluding GST) where construction (building) services are sourced from within the Shire Region.
- ***Where the contract is for goods or services (including construction (building) services), if the Shire is seeking tenders for the provision of those goods or services for the first time, due to those goods or services having been, until then, undertaken by the Shire:***

Up to 5% price preference (up to a maximum price reduction of \$200,000 excluding GST) where goods or services (including construction (building) services) are sourced from within the Shire Region

Competitive Purchasing

Whilst price is a competitive consideration in the provision of goods and/or services via tender, it is only one aspect of the tender evaluation process. Value for money principles, as described within the Shire's 'Purchasing Policy', will be employed by assessing the price component in conjunction with the tender selection criteria and requirements in order to determine value for money. The tender offering the lowest price may not necessarily be successful.

Terminology

Construction (building) services: is defined as the construction of and improvement to buildings (including housing) on or over any area of land, lake, river or ocean and any services related to that activity in the Shire Region.

Goods: include tangible, quantifiable material requirements usually capable of being moved or transported that are purchased, rented, leased or hired by the Shire.

Region: for the purposes of this policy the Region is specified as the entire geographical area encompassed within the boundaries of the Shire of Corrigin.

*Airports have various components, such as building, plant and equipment and the thresholds applicable to these components should be applied to each component.

2.15. SIGNIFICANT ACCOUNTING POLICIES

Policy Owner:	Corporate and Community Services
Person Responsible:	Deputy Chief Executive Officer
Date of Approval:	21 April 2015
Amended:	16 October 2018, 20 October 2020

Objective: To establish financial management procedures which provide full compliance with all local government statutory requirements and accepted accounting policies.

Policy: The significant accounting policies which have been adopted in the preparation of the financial report are:

(a) Basis of Preparation

The financial report is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government (Financial Management) Regulations 1996* take precedence over Australian Accounting Standards. Regulation 16 prohibits a local government from recognising as assets Crown land that is a public thoroughfare, such as land under roads, and land not owned by but under the control or management of the local government, unless it is a golf course, showground, racecourse or recreational facility of State or regional significance. Consequently, some assets, including land under roads acquired on or after 1 July 2008, have not been recognised in the financial reports. This is not in accordance with the requirements of *AASB 1051 Land Under Roads paragraph 15* and *AASB 116 Property, Plant and Equipment paragraph 7*.

Accounting policies which have been adopted in the preparation of financial reports have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the reports have been prepared on the accrual basis and are based on historical costs, modified where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

On July 2020 the following new accounting standards are adopted:

- *AASB 1059 Service Concession Arrangements: Grantors*
- *AASB 2018-7 Amendments to Australian Accounting Standards – Materiality*

AASB 1059 Service Concession Arrangements: Grantors is not expected to impact the financial reports.

Specific impacts of *AASB 2018-7 Amendments to Australian Accounting Standards – Materiality*, have not been identified.

(b) Critical Accounting Estimates

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

(c) The Local Government Reporting Entity

All funds through which the Council controls resources to carry on its functions have been included in the financial statements forming part of the financial reports. In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated. All monies held in the Trust Fund are excluded from the financial statements, but a separate statement of those monies appears as a note to the financial report.

(d) Grants, subsidies and contributions

Operating grants, subsidies and contributions are grants, subsidies or contributions that are not non-operating in nature.

Non-operating grants, subsidies and contributions are amounts received for the acquisition or construction of recognisable non-financial assets to be controlled by the local government.

(e) **Fees and Charges Revenue** (other than service charges) from the use of facilities and charges made for local government services, sewerage rates, rentals, hire charges, fee for service, photocopying charges, licences, sale of goods or information, fines, penalties and administration fees.

(f) **Interest Earnings**

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired.

For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Interest income is presented as finance income where it is earned from financial assets that are held for cash management purposes.

(g) **Cash and Cash Equivalents**

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of financial position.

(h) **Restricted Assets**

Restricted asset balances are not available for general use by the local government due to externally imposed restrictions. Externally imposed restrictions are specified in an agreement, contract or legislation. This applies to reserves, unspent grants, subsidies and contributions and unspent loans that have not been fully expended in the manner specified by the contributor, legislation or loan agreement.

(i) Other Financial Assets at Amortised Cost

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

(j) Financial assets at fair value through profit and loss

The Shire classifies the following financial assets at fair value through profit and loss:

- debt investments which do not qualify for measurement at either amortised cost or fair value through other comprehensive income.
- equity investments which the Shire has not elected to recognise fair value gains and losses through other comprehensive income.

Impairment and Risk

Information regarding impairment and exposure can be found in the notes of the financial reports.

(k) Trade and Other Receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectible amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Impairment and risk exposure

Information about the impairment of trade receivables and their exposure to credit risk and interest rate risk can be found in the notes of the financial reports.

Classification and subsequent measurement

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Trade receivables are held with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

(l) Inventories

General

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Land held for resale

Land held for development and resale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Borrowing costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed onto the buyer at this point.

Land held for resale is classified as current except where it is held as non-current based on the Council's intentions to release for sale.

(m) Other Current Assets

Other non-financial assets include prepayments which represent payments in advance of receipt of goods or services or that part of expenditure made in one accounting period covering a term extending beyond that period.

(n) None Current Assets Held for Sale

Assets are classified as held for sale where the carrying amount will be recovered through a sale rather than continuing use and the asset is available for immediate sale with a sale being highly probable.

Non-current assets classified as held for sale are valued at the lower of the carrying amount and fair value less costs to sell.

The fair value of land and buildings is determined using the sales comparison approach using comparable properties in the area. This is a level 2 measurement as per the fair value hierarchy set out in the notes of the financial reports.

(o) Fixed Assets

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Initial recognition and measurement between mandatory revaluation dates

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Individual assets acquired between initial recognition and the next revaluation of the asset class in accordance with the mandatory measurement framework, are recognised at cost and disclosed as being at fair value as management believes cost approximates fair value. They are subject to subsequent revaluation at the next anniversary date in accordance with the mandatory measurement framework.

Revaluation

The fair value of fixed assets is determined at least once every three to five years in accordance with the regulatory framework, or when Council is of the opinion that the fair value of an asset is materially different from its carrying amount. At the end of each period the valuation is reviewed and where appropriate the fair value is updated to reflect current market conditions. This process is considered to be in accordance with *Local Government (Financial Management) Regulation 17A (2)* which requires property, plant and equipment to be shown at fair value.

Increases in the carrying amount arising on revaluation of assets are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same class of asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

AUSTRALIAN ACCOUNTING STANDARDS - INCONSISTENCY

Land under control

In accordance with *Local Government (Financial Management) Regulation 16(a)(ii)*, the Shire was required to include as an asset (by 30 June 2013), Crown Land operated by the local government as a golf course, showground, racecourse or other sporting or recreational facility of State or Regional significance.

Upon initial recognition, these assets were recorded at cost in accordance with AASB 116. They were then classified as Land and revalued along with other land in accordance with the other policies detailed in the notes of the financial reports.

Land under roads

In Western Australia, all land under roads is Crown Land, the responsibility for managing which, is vested in the local government.

Effective as at 1 July 2008, Council elected not to recognise any value for land under roads acquired on or before 30 June 2008. This accords with the treatment available in *Australian Accounting Standard AASB 1051 Land Under Roads* and the fact *Local Government (Financial Management) Regulation 16(a)(i)* prohibits local governments from recognising such land as an asset.

In respect of land under roads acquired on or after 1 July 2008, as detailed above, *Local Government (Financial Management) Regulation 16(a)(i)* prohibits local governments from recognising such land as an asset.

Whilst such treatment is inconsistent with the requirements of *AASB 1051, Local Government (Financial Management) Regulation 4(2)* provides, in the event of such an inconsistency, the *Local Government (Financial Management) Regulations* prevail.

Consequently, any land under roads acquired on or after 1 July 2008 is not included as an asset of the Shire.

(p) Depreciation

The depreciable amount of all fixed assets including buildings but excluding freehold land and vested land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of comprehensive income in the period in which they arise.

Depreciation rates

Typical estimated useful lives for the different asset classes for the current and prior years are included in the table below:

Asset Class	Useful life
	30 to 50
Buildings	years
Furniture and equipment	10 years
	5 to 15
Plant and equipment	years
- Heavy Vehicles	15 years
- Light Vehicles	7.5 years
	30 to 50
Infrastructure Parks and Ovals	years
	30 to 50
Infrastructure Other	years
	not
Sealed roads and streets	depreciated
	not
Clearing and earthworks	depreciated
Construction/roadbase	50 years
Original surfacings and major resurfacing	
- bituminous seals	20 years
- asphalt surfaces	25 years
Gravel roads	
Gravel sheet	15 years
Formed Roads (Unsealed)	
Footpaths - slab	40 years
Sewerage piping	100 years
Water supply piping and drainage systems	75 years

Depreciation on revaluation

When an item of property, plant and equipment is revalued, any accumulated depreciation at the date of the revaluation is treated in one of the following ways:

(a) The gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount of the asset. For example, the gross carrying amount may be restated by reference to observable market data or it may be restated proportionately to the change in the carrying amount. The accumulated depreciation at the date of the revaluation is adjusted to equal the difference between the gross carrying amount and the carrying amount of the asset after taking into account accumulated impairment losses; or

(b) Eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

Amortisation

All intangible assets with a finite useful life, are amortised on a straight-line basis over the individual asset's useful life from the time the asset is held for use.

The residual value of intangible assets is considered to be zero and the useful life and amortisation method are reviewed at the end of each financial year.

Amortisation is included within Depreciation on non-current assets in the Statement of Comprehensive Income and in the notes.

(q) Leases

At inception of a contract, the Shire assesses if the contract contains or is a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

At the commencement date, a right of use asset is recognised at cost and lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Shire uses its incremental borrowing rate.

Right of use assets are subsequently measured under the revaluation model as they relate to asset classes that are also revalued.

Right of use assets are depreciated over the lease term or useful life of the underlying asset, whichever is the shortest. Where a lease transfers ownership of the underlying asset, or the cost of the right of use asset reflects that the Shire anticipates to exercise a purchase option, the specific asset is amortised over the useful life of the underlying asset.

All contracts that are classified as short-term leases (i.e. a lease with a remaining term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

Leases for right of use assets are secured over the asset being leased.

(r) Computer Software

Costs associated with maintaining software programmes are recognised as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the the Shire are recognised as intangible assets where the following criteria are met:

- it is technically feasible to complete the software so that it will be available for use;
- management intends to complete the software and use or sell it;
- there is an ability to use or sell the software.
- it can be demonstrated how the software will generate probable future economic benefits;
- adequate technical, financial and other resources to complete the development and to use or sell the software are available; and
- the expenditure attributable to the software during its development can be reliably measured.

Directly attributable costs that are capitalised as part of the software include employee costs and an appropriate portion of relevant overheads.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is ready for use.

(s) Trade and Other Payables

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods

and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

Prepaid rates

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

(t) Financial Liabilities

Financial liabilities are recognised at fair value when the Shire becomes a party to the contractual provisions to the instrument.

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of the consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss. Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

Borrowing costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

Risk

Information regarding exposure to risk can be found in the notes of the financial reports.

(u) Employee Benefits

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position.

Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of

the obligations. Any re-measurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

(v) Interests in joint arrangements

Joint arrangements represent the contractual sharing of control between parties in a business venture where unanimous decisions about relevant activities are required.

Separate joint arrangements providing joint ventures with an interest to net assets are classified as a joint venture and accounted for using the equity method. The equity method of accounting, whereby the investment is initially recognised at cost and adjusted thereafter for the post-acquisition change in the Shire's share of net assets of the associate. In addition, the Shire's share of the profit or loss of the associate is included in the Shire's profit or loss.

Joint operations represent arrangements whereby joint operators maintain direct interests in each asset and exposure to each liability of the arrangement. The Shire's interests in the assets, liabilities, revenue and expenses of joint operations are included in the respective line items of the financial statements.

(w) Rates

Control over assets acquired from rates is obtained at the commencement of the rating period.

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

(x) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

(y) Current and Non Current Classification

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.

(z) Rounding Off Figures

All figures shown in this annual financial report, other than a rate in the dollar, are rounded to the nearest dollar.

(aa) Comparative Figures

Where required, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

When the Shire applies an accounting policy retrospectively, makes a retrospective restatement or reclassifies items in its financial statements that has a material effect on the statement of financial position, an additional (third) statement of financial position as at the beginning of the preceding period in addition to the minimum comparative financial statements is presented.

(bb) Budget Comparative Figures

Unless otherwise stated, the budget comparative figures shown in the annual financial report relates to the original budget estimate for the relevant item of disclosure.

(cc) Superannuation

The Council contributes to a number of Superannuation funds on behalf of employees. All funds to which the Shire contributes are defined contribution plans.

(dd) Fair Value of Assets and Liabilities

Fair value is the price that the Shire would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (i.e. the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

(ee) Fair Value Hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The Shire selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Shire are consistent with one or more of the following valuation approaches:

Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

Cost approach

Valuation techniques that reflect the current replacement cost of the service capacity of an asset.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Shire gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable value is the price that the Shire would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

(ff) Impairment of Assets

In accordance with Australian Accounting Standards the Shire's cash generating non-specialised assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount.

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (e.g. AASB 116) whereby any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other standard.

For non-cash generating specialised assets that are measured under the revaluation model, such as roads, drains, public buildings and the like, no annual assessment of impairment is required. Rather AASB 116.31 applies and revaluations need only be made with sufficient regulatory to ensure the carrying value does not differ materially from that which would be determined using fair value at the ends of the reporting period.

2.16. CORPORATE CREDIT CARDS

Policy Owner:	Corporate and Community Services
Person Responsible:	Deputy Chief Executive Officer, Manager Finance
Date of Approval:	19 June 2012
Amended:	21 April 2015; 17 October 2017; 19 June 2018; 16 October 2018, 20 October 2020

Objective: To establish guidelines for the use of the Shire of Corrigin credit cards and the responsibilities of cardholders using the credit cards.

The policy ensures that the risks associated with credit card use are minimised while providing cardholders with a convenient method of purchasing goods and services on behalf of the shire.

Policy:

Legislation

The following provisions of the *Local Government Act 1995* (the Act) and associated regulations impact on the use and control of corporate credit cards:

- Section 2.7(2) (a) and (b) requires the council to oversee the allocation of the local government's finances and resources and determine the policies of the local government.
- Section 6.5(a) of the Act requires the CEO to ensure that proper accounts and records of the transactions and affairs of the local government are kept in accordance with regulations.
- *Local Government (Financial Management) Regulation 11(1) (a)* requires local governments to develop procedures for the authorisation of, and the payment of, accounts to ensure that there is effective security for, and properly authorised use of cheques, credit cards, computer encryption devices and passwords, purchasing cards and any other devices or methods by which goods, services, money or other benefits may be obtained.

Authority for the Use of Corporate Credit Cards

Shire of Corrigin credit cards may be issued to the following Shire of Corrigin employees, with credit card limits as described.

Officer	Credit Card Limit
CEO	\$10,000
Deputy CEO	\$5,000
Manager Works and Services	\$5,000

Approval for additional credit card holders and any change to credit card limits must be approved by Council.

The *Local Government Act 1995* does not allow for the issue of credit cards to elected members. A Local Government can only pay allowances or reimburse expenses to an elected member.

An agreement between the cardholder and the Shire of Corrigin is to be signed which sets out the cardholder's responsibilities, legal obligations and action to be taken in the event that the cardholder fails to comply with procedures.

A register is to be kept of all current cardholders which includes card number, expiry date of credit card, credit card limit and details of goods and services the cardholder has authority to purchase.

All new and existing cardholders are to be provided with a copy of this policy relating to the use of credit cards on an annual basis.

Purchases and Use of Corporate Credit Cards

The shire's credit cards shall only be used for purchase of goods and services in the performance of official duties for which there is a budget provision. Under no circumstances are they to be used for personal or private purposes or for the withdrawal of cash.

A compliant tax invoice/receipt must be provided for all purchases (irrespective of whether it has been purchased by facsimile, over the telephone or on the internet). The tax invoice/receipt and purchase order are to be forwarded to the responsible Finance Officer as soon as received. Credit card purchases will be checked and processed in accordance with normal accounts authorisation and payment processes. Credit card statements are to be reviewed and reconciled by the Manager Finance monthly.

For fringe benefits tax record keeping purposes, any expenditure for entertainment must include the number of people who were in attendance and the full names of any Shire of Corrigin staff.

Card Lost or Stolen

Cards that are lost or stolen must be reported immediately by the cardholder to the issuing banker by telephone. At the earliest opportunity the cardholder is to notify the CEO, Deputy CEO or Manager Finance so that the cancellation of the card can be confirmed and a reconciliation of the card account from the date the card was lost or stolen may be performed.

Misuse of Corporate Credit Cards

Any officer that believes a cardholder is entering into transactions that seem to be unauthorised, excessive and unreasonable will be reported to the CEO. Any breach by a cardholder will require an investigation into activities and if necessary action taken by the CEO which may result in the withdrawal of the card and/or disciplinary action. Cardholders that do not follow any component of this policy may also have their credit card cancelled and may be subject to disciplinary action.

Recovery of Unauthorised Expenditure

Unauthorised expenditure and expenditure of a private nature that is proved to be inappropriate will be recovered by deductions from the cardholder's salary.

Rewards/Bonus Points

Where the credit cards carry rewards or bonus points, these points will be accumulated in the name of the Shire of Corrigin. The CEO will decide how these points are to be utilised. Under no circumstances are reward or bonus points to be redeemed for a cardholder's private benefit.

Return of Cards

In the event that a cardholder's employment ceases with the Shire of Corrigin, takes an extended period of leave, or moves to a position which does not require the use of a credit card the credit card is to be handed to the Manager Finance for cancellation of the corporate card account and destruction of card. Credit cards are not to be transferred to other users.

Credit Card Reporting

A report is provided to Council on a monthly basis that addresses (but not limited to) an independent assessment undertaken by the Manager Finance along with a copy of the credit card statement.

Payments

- The monthly credit card statement is paid via a direct debit on or before the due date.
- All tax invoices and supporting documents for credit card purchases are to be presented to the Finance Officer to be matched up with the statement.
- The Finance Officer will code the individual transactions and submit the list to the credit card holder for their confirmation. The transaction list and associated codes will also be authorised by the CEO.
- The CEO will authorise and sign the DCEO & MWS credit card statement and the DCEO will authorise and sign the CEO credit card statement.

Finance Officer Responsibilities

The Finance Officer will:

- Arrange the issuing and cancellations of credit cards as directed by the CEO.
- Maintain a register of all cardholders.
- Provide cardholders with the credit card policy and where required any changes to the policy and their responsibilities and obligations as cardholders.
- Process payments of credit cards including the attachment of all receipts and tax invoices and the relevant authorising officers have signed off on the statements.
- Arrange for all cardholders to sign the Credit cardholder Agreement on receipt of the new card and ensure the signed agreement is placed in the Corporate Credit Card Register in the Synergy Central Records system.

Cardholders Responsibilities and Obligations

Credit cardholder's must:

- Keep their card in a safe place.
- Make payments for goods and services that are within their card limit, budget and authority to do so.
- Adhere to the credit card policy and procedures and purchasing policy.
- Ensure all receipts and tax invoices are kept and submitted to the Finance Officer within seven days of receipt.

2.17. MOTOR VEHICLE REPLACEMENT

Policy Owner:	Corporate Services
Person Responsible:	Chief Executive Officer, Deputy Chief Executive Officer
Date of Approval:	17 November 2009
Amended:	17 October 2017

Objective: To facilitate better understanding and minimise the whole of life costs for the Shire of Corrigin light vehicle fleet.

Policy: Fleet cycle costs vary regularly due to a variety of factors including fuel costs, used vehicle prices, and market and industry trends. The Shire will review these costs and replacement periods on a regular basis to ensure the most cost effective outcome at all times as part of the development of annual budgets and long term financial plan including the plant replacement program.

Regular advice will be sought from vehicle dealers on the optimum changeover period and vehicle type to minimise the whole of life costs to the Shire. This information will provide the basis of decision making as to when optimum replacement/changeover of light vehicles is deemed appropriate as market industry trends vary.

Vehicle changeover cycles will then be determined by Council through consultation between the CEO and the Deputy CEO after consideration of prevailing market conditions. Changeover will generally occur between two and six years or 50,000 to 100,000km. At all times, the net cost to Council will be the primary consideration in order to minimise change over costs.

The Policy will not override any relevant contractual arrangements with staff.

2.18. PETTY CASH POLICY

Policy Owner:	Corporate Services
Person Responsible:	Manager Finance
Date of Approval:	16 October 2018
Amended:	N/A

Objective: Provide clear parameters in relation to the use of petty cash.

Petty cash funds are to be used to pay for miscellaneous and incidental items of small value. Expenditure may only be incurred for Shire of Corrigin business purposes. This policy seeks to ensure that petty cash floats are established and managed appropriately and that staff are not financially disadvantaged as a result of incurring minor work-related expenses.

Policy: The following policies and procedures are designed to control the use of petty cash:

- It shall be the responsibility of the CEO to consider any application for a petty cash float.
- The amount of the petty cash float shall be as determined by the CEO from time to time, but in general should not exceed \$500.
- It shall be the responsibility of the Finance Officer to manage the petty cash funds and their reimbursement according to this policy.
- Petty cash is only to be used where an urgent purchase is required and payment by corporate credit card is not an option or the amount does not warrant normal purchasing procedure.
- Petty cash claims over \$50 including GST must include a tax invoice.
- Petty cash claims under \$50 including GST must include one of the following:
 - a tax invoice
 - a cash register docket
 - a receipt
 - an invoice.

 - Date of the transaction
 - GL or job number
 - Description of the purchase
 - Amount reimbursed to employee

- Petty cash must be reconciled monthly but reimbursed on an as needs basis no more than 2 months after the first transaction since the previous reimbursement.
- Petty cash must be reimbursed and reconciled 30 June to meet EOFY requirements.

The following transactions are specifically excluded from petty cash reimbursement:

The Petty Cash Reimbursement form acts as a register of petty cash transactions and must contain the following information:

- Date of transaction
- Name of supplier
- Amount including GST
- GST Amount
- Details of the transaction
- GL/Job allocation
- Balance of petty cash remaining

Regulation 11 of the *Local Government (Financial Management) Regulations 1996* states:

The Shire believes that in providing such a workplace it will enable all employees to feel safe, secure and free from intimidation when they are at work.

The Shire of Corrigin prohibits any form of unacceptable behaviour in the workplace and encourages all employees to report any unacceptable behaviour to their Manager, Supervisor, or CEO.

Discrimination

Discrimination is treating a person less favourably on the basis of certain characteristics they possess and it can happen either directly or indirectly and be intentional or unintentional.

Direct discrimination occurs when a person is treated less favourably than another person in the same or similar circumstances, because of any of the grounds or attributes listed below.

Indirect discrimination occurs when an apparently neutral rule has a negative effect on a substantially higher proportion of people with a particular attribute or characteristic, such as those listed below, compared to people without that attribute or characteristic, and the rule is unreasonable in the circumstances.

For example, the minimum height requirement that used to exist in the police force *directly* discriminated against short people on the basis of physical appearance, and *indirectly* discriminated against women and people of certain races, who tend to be shorter.

Unacceptable grounds or attributes of discrimination

Discrimination based on any of the following grounds or attributes is unacceptable:

- Age
- Family responsibility
- Family status
- Gender
- Gender history
- Disability or impairment
- Marital status
- Political conviction
- Pregnancy
- Race
- Religious conviction
- Sexual orientation
- Spent conviction
- Personal association: In some of the listed circumstances the *Equal Opportunity Act 1984* may apply to a relative or person who has a close relationship to a person affected by these grounds.

Examples of discriminatory behaviour

Discrimination may involve:

- Offensive 'jokes' or comments about another person's racial or ethnic background, sex, sexual preference, age, disability, and the like.
- Displaying pictures, calendars, pin-ups, posters, computer images (e.g. in electronic mail messages), which are offensive or derogatory.
- Expressing negative stereotypes of particular groups, for example, 'married women shouldn't be working'.
- Judging a person on characteristics such as religious or political beliefs, cultural practices, sex or age rather than work performance.
- Using stereotypes or assumptions when making decisions about a person's career.

Exceptions

In some situations the legislation may provide exceptions to discrimination or permit what would otherwise be unlawful discrimination. In these circumstances discrimination will be permissible. For example, while it is unacceptable to discriminate

against a person with disability, what would otherwise be unlawful discrimination may be justified if the person cannot perform the inherent requirements of their position.

Responsibilities

Liability of people involved in unlawful acts

A person who causes, instructs, induces, aids or permits another person to do something that is unlawful under the WA Equal Opportunity Act 1984 shall be considered to have done the act themselves.

Vicarious liability

When an employee, or agent, in connection with their employment, does something which is unlawful under the Act, their organisation, employer or principal will be liable for that act unless the employer can demonstrate that they have taken all reasonable steps to prevent the employee/agent from acting unlawfully.

Refer to the WA Equal Opportunity Act 1984 for more information.

Sexual harassment

A person sexually harasses another person if they:

- Make an 'unwelcome sexual advance'.
- Make an 'unwelcome request for sexual favours'.
- Engage in other 'unwelcome conduct of a sexual nature'.
and the behaviour must be such that the harassed person has reasonable grounds to believe if they reject the advance, refuse the request or object to the conduct they will be disadvantaged, or they are in fact disadvantaged.

'Conduct of a sexual nature' can take many forms including, but not limited to:

- Unwelcome physical touching, hugging or kissing.
- Making, orally or in writing, any remark or statement with sexual connotations to a person or about a person.
- Making any gesture, action or comment of a sexual nature.
- Staring or leering at someone, or at parts of their body.
- Suggestive comments or jokes.
- Insults or taunts based on sex.
- Sexually explicit pictures, e-mails or text messages.
- Intrusive questions about an employee's private life or body.

Motive or intention is irrelevant

Sexual harassment is unwelcome, uninvited behaviour which is offensive from the viewpoint of the person being harassed. It does not matter that the offender did not mean or intend to sexually harass the other person. In other words, an offender's 'innocent intent' is irrelevant.

Examples of sexual harassment

Sexual harassment can involve any physical, visual, verbal or non-verbal conduct of a sexual nature including either one-off incidents or a series of incidents. It also includes workplace behaviour or behaviour in connection with work, for example, at a Christmas party or at a work function outside of work hours. Depending on the circumstances, other examples of sexual harassment include:

- Displays of sexually graphic material including posters, pictures, calendars, cartoons, graffiti or messages left on boards or desks.
- Electronic mail messages, voice mail messages, screen savers, any material of a sexual nature downloaded from the internet, or viewed on a computer, offensive telephone calls, faxes, or gifts.
- Deliberate and unnecessary physical contact, such as patting, pinching, fondling or deliberately brushing against another body, attempts at kissing.
- Leering or staring at a person's body.

- Inappropriate 'humour' such as smutty or sexist jokes or comments.
- Innuendo, including sexually provocative remarks, suggestive or derogatory comments about a person's physical appearance, inferences of sexual morality or tales of sexual performance.
- Repeatedly asking someone out, especially after prior refusal.
- Intrusive inquiries into a person's private life or in reference to a person's sexuality.

Behaviour can breach this policy even if it is not unlawful

The Shire of Corrigin may decide that behaviour breaches this policy even if a complaint has not been raised. For example, storing and viewing sexually explicit images in the workplace or on a computer at work may constitute sexual harassment under this policy, even if a complaint has not been made against the offender. This behaviour is still unacceptable at work, even if it is not unlawful, and may result in disciplinary action being taken, including termination of employment.

Alcohol and functions

Everyone who works for the Shire of Corrigin is expected to behave in a professional and appropriate manner at all work related events, including client or social functions, industry events and conferences. Alcohol is no excuse for unacceptable behaviour.

Bullying

Workplace bullying is repeated, unreasonable or inappropriate behaviour directed towards an employee, client, contractor or other external party that creates a risk to their health and safety.

Unreasonable behaviour is that which victimises, humiliates, undermines or threatens the person being bullied, or would reasonably be expected to do so. Bullying breaches this policy and also the Shire of Corrigin's Health, Safety and Environment policy which provides that all workers must take reasonable care for the health and safety of their co-workers.

Examples of bullying

Bullying is defined by the effect of the behaviour, even though there may not be a specific intent to bully. Bullying may include one or more behaviours. Bullying may also include violence and aggression. Where bullying involves assault or threat of assault it may become a police matter.

There are two main types of bullying behaviour, overt and covert.

Examples of **overt** bullying include:

- Abusive, insulting or offensive language.
- Behaviour or language that frightens, humiliates, belittles or degrades, including criticism that is delivered with yelling and screaming.
- Inappropriate comments about a person's appearance, lifestyle, or their family.
- Teasing or regularly making someone the brunt of pranks or practical jokes.
- Interfering with a person's personal effects or work equipment.
- Harmful or offensive initiation practices.
- Isolation of workers from others.
- Physical assault or threats.

Covert behaviour that undermines, treats less favourably or disempowers others is also bullying, for example:

- Overloading a person with work or not providing enough work.
- Setting timelines that are difficult to achieve or constantly changing deadlines.
- Constantly setting tasks that are below or beyond a person's skill level.
- Ignoring or isolating a person.
- Deliberately denying access to information, consultation or resources.
- Unfair treatment in relation to accessing workplace entitlements such as leave or training.

What bullying does not include

Bullying does not include:

- Genuine and reasonable disciplinary procedures.
- Constructively delivered feedback or counselling that is intended to assist employees to improve their work performance or the standard of their behaviour. For example, objective comments which indicate observable performance deficiencies.
- Directing and controlling how work is done (a fundamental right of all employers)

Victimisation

Victimisation means subjecting or threatening to subject someone to a detriment (as defined below), as a form of retribution in response to an actual or possible discrimination, harassment or bullying issue. The complaint need not actually have been made; it is sufficient that the original issue could have been raised as discrimination, harassment or bullying complaint, or that an individual:

- Intends to make a complaint.
- Makes a complaint.
- Intends to provide information as a witness.
- Provides information as a witness.
- Supports an individual who intends to make a complaint.
- Supports an individual who has made a complaint.
- Is believed to have done any of the above.

Victimisation also applies to anyone giving evidence about a complaint.

What is a detriment?

A detriment in employment includes demotion, dismissal, transfer, suspension, loss of a benefit, being ostracised from work or work related social functions, or being the subject of gossip or innuendo.

Our approach

The Shire of Corrigin does not permit retaliation against a person just because they propose to, have, or are believed to have made a complaint of unacceptable behaviour under this policy, equal opportunity legislation or occupational health and safety legislation.

If someone raises a complaint with you about your behaviour

If a person raises a complaint directly with you about your behaviour, you should appreciate that they are letting you know that they find your behaviour unacceptable. They are giving you an opportunity to change your behaviour, and possibly prevent a formal complaint from being made against you. If someone does raise a complaint with you about your behaviour, you should consider monitoring and changing your behaviour, and you should not victimise the person making the complaint.

If you are concerned about a complaint raised directly with you, or the person who has raised the complaint, you are encouraged to discuss this with the CEO or your Manager or Supervisor.

To be read in conjunction with the Shire of Corrigin Equal Employment Opportunity Management Plan 2019-2021 – adopted 18 December 2018, Council Resolution 213/2018.

3.5. PROTECTION FROM THE SUN FOR OUTDOOR WORK

Policy Owner:	Governance and Compliance
Person Responsible:	Chief Executive Officer, Deputy Chief Executive Officer, Manager Works and Services
Date of Approval:	21 April 2015
Amended:	N/A

Objective: To provide guidelines for Shire staff to avoid harmful exposure to the elements.

Policy: The minimum clothing requirements for outdoor employees shall be a long sleeve shirt and, long trousers. Unless for safety related reasons shirt sleeves may be rolled up (refer to Staff Uniform policy).

The basic dress code will apply all year round – exemptions may apply based upon written medical advice.

Council will supply hats, long sleeve shirts and trousers and sunscreen appropriate for the nature of the work. Council will not provide shorts. Wherever practicable, the Ultra-violet Protection Factor (UPF) of clothing fabric will be 30+ or better.

An “outdoor employee” for the purpose of this document, is defined as a person whose regular daily duties require them to be in direct sunlight for more than one (1) hour per day on a cumulative basis.

Use of sunscreen cream

All outdoor employees will be supplied with sunscreen cream, which should be applied to their uncovered skin in accordance with manufacturer directions. Information, instructions and supervision will be provided in the use of sunscreens (note Section 19(1) (b) of the *Occupational Safety and Health Act 1984*). In particular, this refers to their faces, ears, necks, backs of the hands, and legs if relevant. The cream provided will be registered under Australian Standards and be of the SPF 30+ broad spectrum type.

Exemptions may apply based on written medical advice.

Other people who work outdoors

Those people who work in direct sunlight for more than thirty (30) minutes (but less than one (1) hour) per day on a daily basis are also required to wear a broad brimmed hat or (equivalent) and sunscreen, both of which Council will supply. Such workers may be environmental health and building officers.

Supply and use of sun glasses

All staff working outdoors shall, when practicable, wear general purpose sun protection glasses which comply with Australian Standards. These will be made available to relevant staff as part of the standard personal protective equipment issue.

Administrative and other controls

While these policy guidelines are essentially about the type of garments worn, the implications to the wearer with respect to comfort and overheating problems are worthy of further mention.

The key factors which may promote bodily overheating problems are:

- (a) Ambient and radiant temperature
- (b) Extent of air movement (wind)
- (c) Pace and physical demand of work
- (d) Adequacy of water replacement required by sweating
- (e) Humidity
- (f) Person's clothing.

Note: Actual temperatures experienced by workers will differ considerably dependent on their workplace. Working in a well-treed park will be vastly different to working on an open bitumen road.

Steps which should be taken to avoid overheating include:

1. All relevant staff should have ample supplies of fresh cool water. Where main water is unavailable a 5 litre water bottle will be provided to each person.
2. Exploiting the use of natural shade.
3. The erection of temporary shade where practicable.
4. Rescheduling of particularly heavy work outdoors between the period 10am to 2pm where practicable.
5. Consideration of temporary cessation from physically demanding work for the time when severe heat related conditions are experienced.

It is readily apparent that heavy work in particularly hot weather is not efficient work, without frequent stops, at least for drinks and possibly self-dousing with water. Staff should report immediately to their supervisor any significant symptoms of bodily overheating. Suitable education sessions should be conducted to ensure that staff members are aware of what these symptoms are and the effects of exposure to ultraviolet radiation.

Consultation

Council realises that the type of clothing worn in the field is of considerable importance to outdoor employees and hence people or their representatives will be consulted with respect to changes in style, type and fabric of clothing as issued in accordance with good management practices. (Note, also Section 35(1) (c) of the *Occupational Safety and Health Act 1984*).

Wherever practicable, the Council, having adopted a clothing policy will ensure that the style and fabric of garments is acceptable and appropriate to the relevant workforce.

5.8. ELECTED MEMBER, CHIEF EXECUTIVE OFFICER AND EMPLOYEE ATTENDANCE AT EVENTS POLICY

Policy Owner:	Governance and Compliance
Person Responsible:	Chief Executive Officer
Date of Approval:	18 February 2020
Amended:	

Objective: The purpose of this policy is to establish guidelines for appropriate disclosure and management of acceptance of invitations to events or functions, or other hospitality occasions, where elected members and employees are invited free of charge, whether as part of their official duties as council or Shire of Corrigin representatives or not.

Policy: This policy applies to Elected Members, the Chief Executive Officer and all employees of the Shire of Corrigin in their capacity as an Elected Member or employee of the Shire.

When considering whether an invitation to an event or hospitality given to an elected member or an employee is a gift for the purposes of the Act and Regulations, the key issues are:

- The business, community group or individual offering the gift, ticket or benefit.
- Value of the benefit.
- Expectation of anything of value in return for the benefit such as formally opening or speaking at the event or presenting prizes/awards.
- Whether the value of that contribution outweighs the value of the benefit.

Definitions

District: is defined as the Wheatbelt Region of Western Australia.

Elected Members: includes the Shire President and all Councillors.

In accordance with the Local Government Act 1995 s 5.90A, an event is defined as a:

- Concert
- Conference
- Function
- Sporting event
- Occasions prescribed by the Local Government (Administration) Regulations 1996.

Entertainment Events

Any tickets accepted by an elected member, or employee, without payment for any commercial entertainment event, for which a member of the public is required to pay whether sponsored by the Shire of Corrigin or not will generally be classified as a gift for the purposes of the Act and Regulations.

An exception to this is where the President or President's representative attends the event in an official capacity to perform a civic function. Where there is commercial entertainment event that, in the opinion of the Chief Executive Officer, it is in the interests of the Shire of Corrigin for one or more elected members or employees to attend in order to assess and understand first-hand the impacts on the community or business, then one or more tickets for that event will be purchased for the relevant elected member or employee by the Shire of Corrigin at full cost.

Other Commercial (non-entertainment) Events

For other commercial (non-entertainment) events, such as a conference or seminar, for which a member of the public is required to pay, where the Chief Executive Officer is of the opinion that it is in the interests of the Shire of Corrigin for one or more elected members or employees to attend (such as for their professional development or to

undertake a function as an elected member or employee), then one or more registrations or other benefits for that event will be purchased for the relevant elected member or employee by the Shire of Corrigin at full cost to enable attendance.

If the Shire of Corrigin does not pay for the event, free registration or any other benefit (such as hospitality) given to an elected member or employee would be classified as a 'gift' unless the contribution of the elected member or employee to the event (such as by way of a paper or speaking engagement) is reasonably considered to outweigh the value of registration or other benefit given to the elected member or employee.

Community/Local Business Events

Acceptance of reasonable and modest hospitality by an elected member or employee at an unpaid event run by a local community group for local business would not generally be classified as a 'gift' where the contribution by the elected member or employee to the event is reasonably considered to outweigh the value of the hospitality.

This is more likely where the elected member or employee attends the event in his or her capacity as an elected member or employee - preferably where the attendance has been requested by the sporting club or community group, and is specifically authorised by the Shire of Corrigin, but otherwise where the person is performing his or her functions as an elected member or employee.

Conflicts of Interest

Attendance at events may lead to a perceived or actual conflict, which may prevent council members participating, or employees, providing advice at a future meeting. If the amount of an event ticket (gift) is less than \$1,000, and relates to a matter before Council, under section 5.68 of the Act, Council may allow the disclosing council member to participate in the discussion and vote on the condition that the interest, the council's decision and the reasons for that decision are recorded in the minutes.

If the amount gift is above \$1,000 the Council or CEO must apply to the Minister for permission to allow the member or employee to participate.

Scope

The policy provides guidance to elected members and employees when an invitation to an event or function, or other hospitality occasion, ticketed or otherwise, is offered free of charge. It does not provide guidance on the acceptance of a tangible gift or travel contribution.

Travel and accommodation excluded: This policy does not apply to tangible gifts or money, travel or accommodation. Any contribution to travel, subject to the exceptions in section 5.83 of the Local Government Act 1995 (the Act), must be disclosed in writing to the CEO within 10 days of receipt of the contribution.

Contributions to travel costs, whether financial or otherwise are now incorporated within the definition of gift.

The following situations are specifically excluded where the event ticket (gift) is received from one of the following organisations:

- WALGA (but not LGIS)
- Local Government Professionals Australia (WA)
- Australian Local Government Association
- A department of the public service
- A government department of another State, a Territory or the Commonwealth
- A local government or regional local government

The gift is still required to be recorded on the “gift register”.

Pre-Approved Events

In order to meet the policy requirements, tickets and invitations to events must be received by the Shire (as opposed to in the name of a specific person in their role with the Shire).

The Shire approves attendance at the following events by elected members, the Chief Executive Officer and employees of the Shire:

- (s) Where Shire President, elected member or Chief Executive Officer representation has been formally requested.

All elected members, the Chief Executive Officer and employees with the approval of the CEO, are entitled to attend a pre-approved event.

If there is a fee associated with a pre-approved event, the fee, including the attendance of a partner, may be paid for by the Shire of Corrigin by way of reimbursement.

If there are more elected members than tickets provided then the Shire President shall allocate the tickets.

Approval Process

Where an invitation is received to an event that is not pre-approved, it may be submitted for approval prior to the event for approval as follows:

- Events for the Shire President may be approved by the Deputy Shire President;
- Events for Councillors may be approved by the Shire President;
- Events for the Chief Executive Officer may be approved by the Shire President;
- and
- Events for employees may be approved by the Chief Executive Officer.

Considerations for approval of the event include:

- Any justification provided by the applicant when the event is submitted for approval.
- The benefit to the Shire of Corrigin of the person attending.
- Alignment to the Shire of Corrigin Strategic Objectives.
- The number of Shire representatives already approved to attend.

Non-Approved Events

Any event that is not pre-approved, is not submitted through an approval process, or is received personally is considered a non-approved event.

- If the event is a free event to the public then no action is required.
- If the event is ticketed and the Elected Member, Chief Executive Officer or employee pays the full ticketed price and does not seek reimbursement, then no action is required.
- If the event is ticketed and the Elected Member, Chief Executive Officer or employee pays a discounted rate, or is provided with a free ticket(s), with a discount value, then the recipient must disclose receipt of the tickets (and any other associated hospitality) within 10 days to the Chief Executive Officer (or President if the CEO) if the discount or free value is greater than \$50 for employees, other than the Chief Executive Officer, and greater than \$300 for Elected Members and the CEO.

Conference Registration, Bookings, Payment and Expenses

Shall be dealt with in avoidance with Council Policies:

- 8.9 Elected Members' Business, Conferences and Training Expenses
- 8.7 Training and Development – Elected Members

Dispute Resolution

All disputes regarding the approval of attendance at events are to be resolved by the Shire President in relation to elected members and the Chief Executive Officer and the CEO in relation to other employees.

Procedures

Organisations that desire attendance at an event by a particular person(s), such as the President, Deputy President, elected member, Chief Executive Officer or particular officer of the Shire, should clearly indicate that on the offer, together what is expected of that individual, should they be available, and whether the invite / offer or ticket is transferable to another Shire of Corrigin representative.

Free or discounted invitations / offers or tickets that are provided to the Shire of Corrigin without denotation as to who they are for, are be provided to the Chief Executive Officer and attendance determined by the Chief Executive Officer in liaison with the Shire President, based on:

- the relative benefit to the organisation in attending the event,
- the overall cost in attending the event, inclusive of travel or accommodation,
- availability of representatives, and
- the expected role of the relevant elected member or employee.

Guidelines

1. The internet is not anonymous, nor does it forget

Everything written on the Web can be traced back to its author one way or another and very easily.

2. There is no clear line between your work life and your personal life. Always be honest and respectful in both capacities.

With the ease of tracing authors back from their posts and the amount of information online, finding the actual identity of a poster from a few posts and a screen name is not impossible. This creates an avenue for outside parties to link your personal writings to the Shire of Corrigin. Always write as if everyone knows you. Never write anything you wouldn't/couldn't say out loud to all parties involved.

3. Avoid hazardous materials

Do not post or link to any materials that are defamatory, harassing or indecent.

4. Don't promote other brands with our brand

Do not promote personal projects or endorse other brands, causes or opinions when posting on behalf of the Shire of Corrigin. The endorsement of the Shire can be sought if required. If a personal opinion must be posted, clearly state that it does not represent the opinions of the Shire.

5. Maintain confidentiality

Do not post any confidential information in regards to the Shire of Corrigin including personal information of employees, Councillors and other individuals associated with the Shire of Corrigin.

6. Always acknowledge

When reposting/referencing a post or someone else's comments provide a link to the original item or acknowledge the author.

7. Identify yourself

When relevant, identify your affiliation with the Shire of Corrigin to add credibility to your profile and to increase the visibility of the Shire of Corrigin.

8. Do not qualify your work

Do not post statements regarding the quality or quantity of your work/load.

9. Do not return fire

If a negative post or comment is found online about the Shire of Corrigin or one of its representatives, do not counter with another negative post. Publicly offer to remedy the situation through positive action.

10. Do not action requests made through social media

Actioning requests must be done only through our regular procedures to avoid conflicts and other ethical problems.

It should be noted that comments considered to be offensive or defamatory will be removed by the Administrator and repeat offenders blocked.

Policy: This policy applies for periods of planned leave such as long service leave, annual or personal leave as well as during periods of unforeseen extended absence of the Chief Executive Officer (CEO) for periods of leave up to 3 months.

6. Appointment to the role of Acting CEO must be made in writing by the CEO.

5.24. DEALING WITH FAMILY MEMBERS

Policy Owner:	Corporate and Community Services
Person Responsible:	Chief Executive Officer
Date of Approval:	17 October 2017
Amended:	N/A

- Objective:** To set out the Shire's position in relation to dealings with family members, specifically:
- Employment of individuals who are related to another employee or member of Council is covered by the *Equal Opportunities Act 1984* and Section 5.40 of the *Local Government Act 1995*.
 - Provision of services to individuals who are related to an employee or member of Council.
 - Procurement of goods or services from individuals who are related to an employee or member of Council.

Policy: **Conflict of Interest**
Conflicts of interest can occur when the private interests of an employee influence, or could be seen to influence, their public duties or responsibilities. The perception of a conflict of interest can be enough to undermine confidence in the integrity of the employee and the Shire of Corrigin. When dealing with family members, there is a clear potential for an employee's impartiality to be questioned by other staff and the community.

For the purposes of this policy, a family member is as defined in Section 6 of the Family Court Act 1997 (WA) and includes: wife, husband, father, mother, son, daughter, grandfather, grandmother, step-father, step-mother, grandson, granddaughter, step-son, step-daughter, brother, sister, half-brother, half-sister, step brother, step-sister, mother-in-law, father-in-law, daughter-in-law, son-in-law, sister-in-law, brother-in-law, aunt, uncle, niece, nephew, cousin. This also includes any legally recognised variation to these relationships, such as de facto, adoptive, ex-nuptial relationships, same sex relationships and changes resulting from separation / divorce.

Employment of Family Members

Where a family member of an existing employee or member of Council has applied for a position at the Shire of Corrigin, the employee or member of Council will not sit on any selection panel relating to the position, and will not attempt to participate in or influence the selection process or decision in any way. Although it is preferable for family members to hold positions in different areas within the Shire, there may be occasions where this is not possible and in these circumstances, guidelines would be put in place to ensure that there is no conflict of interest in relation to the approval of leave, approval of purchasing, writing or purchase orders, performance appraisals and staff management.

Except in exceptional circumstances, no person employed by the Shire should work under the general supervision of another member of his / her family, even if one or more levels removed. No employee will conduct a performance review of a family member, or take part in any salary, promotion, termination or disciplinary discussions or decisions in relation to the family member.

Provision of Services to Family Members

In a small rural local government it is inevitable that situations will arise where the Shire of Corrigin provides services to a family member of an employee. Wherever a discretionary power is being exercised, for example when considering a building application or granting a permit, the Code of Conduct requires the employee to declare their interest, and to disqualify themselves from dealing with their family member or close friend. An employee should also consider if their impartiality is affected when dealing with a customer who they know is a family member or friend of another employee.

Procurement of Goods and Services from Family Members

A situation may arise where the Shire of Corrigin purchases goods or services from a family member of an employee (or, in the case of a business, is owned, run or managed by an employee's family member). In order to avoid any actual or perceived conflict of interest, an employee must:

- Disclose that they are related to a prospective supplier, by informing their supervisor or manager prior to any order being placed.
- Not participate in the recommendation of, the drafting of specifications for, or the decision to purchase the goods or services involved.
- Not submit or authorise a purchase order for the goods or services involved.
- This does not prevent an entity associated with an employee's family member from being selected for supply of goods or services, where this supply would be the most advantageous to the Shire; and the Shire's Code of Conduct and Purchasing Policy has been complied.

5.25. RELATED PARTY DISCLOSURE

Policy Owner:	Corporate and Community Services
Person Responsible:	Chief Executive Officer
Date of Approval:	17 October 2017
Amended:	N/A

Objective: To establish a procedure for related party disclosures.

The scope of AASB 124 Related Party Disclosures was extended in July 2015 to include application by not-for-profit entities, including local governments. The operative date for Local Government is 1 July 2016, with the first disclosures to be made in the Financial Statements for year ended 30 June 2017. This procedure outlines required mechanisms to meet the disclosure requirements of AASB 124.

Policy: The objective of the standard is to ensure that an entity's financial statements contain disclosures necessary to draw attention to the possibility that its financial position and profit or loss may have been affected by the existence of related parties and transactions.

The disclosure requirements apply to the existence of relationships regardless of whether a transaction has occurred or not. For each financial year, the Shire of Corrigin must make an informed judgement as to who is considered to be a related party and what transactions need to be considered, when determining if disclosure is required. The purpose of this procedure is to stipulate the information to be requested from related parties to enable an informed judgement to be made.

Identification of Related Parties

AASB 124 provides that the Shire of Corrigin will be required to disclose in its Annual Financial reports, related party relationships, transactions and outstanding balances.

Related parties includes a person who has significant influence over the reporting entity, a member of the key management personnel (KMP) of the entity, or a close family member of that person who may be expected to influence that person.

KMP are defined as persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly.

For the purposes of determining the application of the standard, the Shire of Corrigin has identified the following persons as meeting the definition of Related Party:

- An elected Council member
- Key Management Personnel (KMP) being a person employed under section 5.36 of the *Local Government Act 1995* in the capacity of CEO, Deputy CEO, Manager or Supervisor.
- Close members of the family of any person listed above, including that person's child, spouse or domestic partner, children of a spouse or domestic partner, dependents of that person or person's spouse or domestic partner.
- Entities that are controlled or jointly controlled by a Council member, KMP or their close family members. (Entities include companies, trusts, joint ventures, partnerships and non-profit associations such as sporting clubs).

The Shire of Corrigin will therefore be required to assess all transactions made with these persons or entities.

Identification of related party transactions

A related party transaction is a transfer of resources, services or obligations between the Shire of Corrigin (reporting entity) and the related party, regardless of whether a price is charged. For the purposes of determining whether a related party transaction has occurred, the following transactions or provision of services have been identified as meeting this criteria:

- Paying rates.
- Fines.
- Use of Shire of Corrigin owned facilities such as the Recreation and Events Centre, Halls, pool, library, parks, ovals and other public open spaces (whether charged a fee or not)].
- Attending council functions that are open to the public.
- Employee compensation whether it is for KMP or close family members of KMP.
- Application fees paid to the Shire of Corrigin for licences, approvals or permits.
- Lease agreements for housing rental (whether for a Shire of Corrigin owned property or property sub-leased by the Shire of Corrigin through a Real Estate Agent).
- Lease agreements for commercial properties.
- Monetary and non-monetary transactions between the Shire of Corrigin and any business or associated entity owned or controlled by the related party (including family) in exchange for goods and/or services provided by/to the Shire of Corrigin (trading arrangement)
- Sale or purchase of any property owned by the Shire of Corrigin, to a person identified above.
- Sale or purchase of any property owned by a person identified above, to the Shire of Corrigin.
- Loan Arrangements.
- Contracts and agreements for construction, consultancy or services.

Some of the transactions listed above, occur on terms and conditions no different to those applying to the general public and have been provided in the course of delivering public service objectives. These transactions are those that an ordinary citizen would undertake with council and are referred to as an Ordinary Citizen Transaction (OCT). Where the Shire of Corrigin can determine that an OCT was provided at arm's length, and in similar terms and conditions to other members of the public and, that the nature of the transaction is immaterial, no disclosure in the annual financial report will be required.

Disclosure Requirements

For the purposes of determining relevant transactions in point 2 above, elected Council members and key management personnel as identified above, will be required to complete a Related Party Disclosures - Declaration form for submission to financial services.

Ordinary Citizen Transactions (OCTs)

Management has determined that the following OCT that are provided on terms and conditions no different to those applying to the general public and which have been provided in the course of delivering public service objectives, are unlikely to influence the decisions that users of the Council's financial statements make. As such no disclosure in the quarterly Related Party Disclosures - Declaration form will be required for the following:

- Paying Rates.
- Fines.
- Use of Shire of Corrigin owned facilities such as the Recreation and Events Centre, Halls, library, parks, ovals and other public open spaces (whether charged a fee or not).
- Attending council functions that are open to the public.

Where these services were not provided at arm's length and under the same terms and conditions applying to the general public, elected Council members and KMP will be required to make a declaration in the Related Party Disclosures - Declaration form about the nature of any discount or special terms received.

All other transactions

For all other transactions listed above, elected Council members and KMP will be required to make a declaration in the Related Party Disclosures - Declaration form.

Frequency of disclosures

Elected Council members and KMP will be required to complete a Related Party Disclosures - Declaration form each year.

Disclosures must be made by all Councillors immediately prior to any ordinary or extraordinary election.

Disclosures must be made immediately prior to the termination of employment of/by a KMP.

Confidentiality

All information contained in a disclosure return, will be treated in confidence. Generally, related party disclosures in the annual financial reports are reported in aggregate and as such, individuals are not specifically identified. Notwithstanding, management is required to exercise judgement in determining the level of detail to be disclosed based on the nature of a transaction or collective transactions and materiality. Individuals may be specifically identified, if the disclosure requirements of AASB 124 so demands.

Materiality

Management will apply professional judgement to assess the materiality of transactions disclosed by related parties and their subsequent inclusion in the financial statements. In assessing materiality, management will consider both the size and nature of the transaction, individually and collectively.

6.2. **COMMUNITY ENGAGEMENT POLICY**

Policy Owner: Governance and Compliance
Person Responsible: Chief Executive Officer
Date of Approval: 18 August 2020
Amended:

Objective: This policy outlines the purpose, principles and approach to community engagement to be taken by the Shire of Corrigin when engaging communities and stakeholders.

Policy: The policy will be applied by all employees and consultants appointed by the Shire when engaging those affected by and interested in decisions to be made by Council.

Policy Statement

1. Purpose

The Shire of Corrigin is committed to providing opportunities for all members of the community to participate in civic decision-making processes.

The Shire recognises that the community is a source of knowledge and expertise, and this can be harnessed to help find solutions to local issues as well as complex Shire challenges.

Community engagement is a key part of our commitment to be a transparent and responsive organisation. Our objective is to make better decisions by giving a voice to communities and stakeholders on matters and topics that are of interest and important to them and to develop and encourage a culture which respects and welcomes community input.

2. Principles

The Shire of Corrigin's approach to community engagement is guided by the following principles:

- 1.1** We clearly communicate why we are engaging and the community's role in the engagement. From the outset, we articulate the purpose of our engagement and what will happen as a result of any information gathered. We explain what level of influence the community, stakeholders and Council have on the decision to be made, and any associated limitations or constraints. We consider the requirements for each project and its level of potential impact on the community to determine the required level and timing of engagement. We provide all information necessary so participants can make informed choices.
- 1.2** We carefully consider who to engage. Before we begin engaging, we identify communities and stakeholders who are directly involved, or likely to be affected by the project. On major projects that set a direction or define a position for the Shire, we encourage broad community participation to ensure that a diverse range of views and ideas are expressed and considered. We also consider barriers that prevent or deter people from participating in engagement activities and consider ways to minimise them.
- 1.3** We explain the process. We aim to be transparent, and make our decision-making process clear. We do this by explaining upfront the

process to be undertaken, identifying where there is opportunity for the community and stakeholders to have input, and where the decision-points are. Where possible, we build on the outcomes of previous engagement. If the engagement crosses over with a previous engagement process, we explain the outcomes, identify how they relate to the current process and why a new process is required.

- 1.4** We carefully consider how to engage and ensure our processes, venues and information are accessible. We recognise people engage with civic life in different ways depending on a number of factors, such as age, background and ability. We aim to be responsive to this broad spectrum of needs, and ensure there are multiple engagement methods in various settings, to achieve appropriate community participation. We ensure our engagement is accessible by providing information in clear and easy to understand formats, or is available in alternative formats on request. Our engagement events and venues are designed to be accessible whenever practical and achievable.
- 1.5** We design our engagement to be engaging. The Shire of Corrigin is working to continuously improve how we engage, and design approaches that are creative, relevant and engaging. We are open to new and innovative engagement methodologies, and we are working on ways to tailor our approach to draw people into the process and maximise the reach and impact of our engagement.
- 1.6** We complement our engagement with high quality communication. We provide clear, comprehensive and accessible information, written in plain English, to stakeholders throughout the engagement process. Information about our engagement is on our website and through the Shire's usual communication channels.
- 1.7** We acknowledge contributions made during the engagement process and let participants know how their feedback was used in our decision-making. We are transparent with the community about how their participation was considered, by reporting back what we heard from contributors and how their input has been incorporated in decision making. We also share the results of engagement through our website and other mechanisms as appropriate. We also advise contributors when the matter is to be considered by Council so they may attend Ordinary Council Meetings if they wish.

3. Approach

3.1 When We Consult our Community

The Shire will engage with the community when:

- Council resolves formally to engage.
- A decision or plan will substantially impact the community and there is some part of the decision or plan that is negotiable.
- Stakeholders or the community have expressed an interest, or could be interested in a decision or plan where there is a range of potential outcomes.
- Community input can enhance decision-making, project outcomes or future opportunities.
- There is legislation, policy or an agreement requiring community engagement or consultation.

3.2 How We Engage

The level of engagement will vary depending on the nature and complexity of the project or decision and will be guided by the Shire of Corrigin community engagement principles as set out above in Section 2 of this Policy.

Consideration is given to matters like community and stakeholder interest, political sensitivity, opportunities for partnerships, the level of impact, legislative requirements, time and resource and budget constraints. These considerations will guide how and when in the life of a project or decision community engagement may offer the greatest benefit.

Quality community engagement is well planned and executed, inclusive and accessible to all members of the community.

At times Council will engage the community on issues that are of importance or interest to a specific part of the community. In this instance, engagement will be targeted towards this group.

The Shire's engagement approach has four stages to ensure we deliver a consistent approach to engagement activities. This includes: a process of planning (developing an engagement plan); doing (preparing and engaging); reporting (analysing information and providing updates on the engagement) and evaluating (both the process and outcomes).

The purpose of the engagement and the type of input that will assist with the decision to be made, is reflected in the way community engagement is planned and reported. We carefully consider aspects of both qualitative input (such as trends and thoughts) and quantitative input (such as number of participants) when designing engagement methods and reporting back what we heard.

The following matrix is used to assist in determining the most suitable approach, relative to the likely 'level of impact' of a project, plan, service or action. As highlighted by this matrix, there are four levels of engagement: Inform, Consult, Involve, and Collaborate. More than one level of engagement is generally required, as there is likely to be movement back and forth through the different levels as the engagement is implemented, except in the case of projects or issues with only a low level of impact of a localised nature or if there is a statutory requirement to consult.

3.3 When it is Not Effective or Appropriate to Engage

It is neither effective nor appropriate for the Shire to engage when:

- A final decision has already been made by council or another agency.
- Council cannot influence a decision by another agency or party.
- The decision to be made concerns a minor operational matter with minimal impact on the community or stakeholders.
- Implementing a project or decision that has already been subject to engagement.
- There is insufficient time due to legislative or legal constraints, or urgent safety issues to be addressed.

In these events, the Shire will inform stakeholders why the decision has been made.

3.4 Statutory Engagement

In some instances, the Shire of Corrigin is legally required to consult with the community. In these cases, the Shire will treat the prescribed level of community engagement as the minimum standard.

The most common instance of this is in relation to development applications and other planning proposals. For planning proposals, the Shire relies on its policies, adopted under the *Planning and Development Act 2005*, for guidance in regard to consultation and this will continue to be the basis on which the Shire engages with the community on planning matters.

Delivery of community engagement beyond legally required levels will depend on the decision to be made (or project or service to be delivered), the community's interest to participate, the need for Council to understand the community's view, and the opportunity for the community to influence the decision.

3.5 Holiday Periods

The Shire will not commence an engagement process between the last Council meeting of the calendar year and the first Council meeting of the new-year, unless there is a legal requirement, Council direction or other unavoidable necessity to do so.

An additional 14 days will be added to any engagement period that falls between 15 December and 15 January and seven days before and seven days after Easter Sunday.

4. Definitions and Abbreviations

The full cost of the sign and installation will be at the farm/business owner's expense.

The Shire of Corrigin has information signs at the corners of Goyder Street, Walton Street, Kirkwood Street and the highway (Kunjin Street) directing people to businesses and services located within the town centre. Businesses and organisations can request Council install blue directional fingerboards on to these signs but the sign will be of a generic nature and will not include business names. For example "Pharmacy" not the name of the business "Corrigin Pharmacy". These signs and installation costs will be charged to the person requesting the signage.

These types of information signs are located throughout the townsite to mark places of interest, see below example at Apex Park.

11.3. ROAD HIERARCHY, MAINTENANCE AND RENEWAL POLICY

Policy Owner:	Works and Services/Governance and Compliance
Person Responsible:	Manager Works and Services/Governance Executive Officer
Date of Approval:	15 October 2019
Amended:	N/A

Objective: The purpose of the Road Maintenance and Renewal Policy is to establish the framework for implementing consistent and equitable road management processes throughout the Shire of Corrigin.

Policy: Council's aim is to provide a safe and secure road network that contributes to an improved quality of life for the community. The road network in the Shire of Corrigin is separated into various components and funded from different sources.

Background

Council has a responsibility to ensure that the road network is as safe as it can be within the limited resources available. To achieve this, Council is committed to implementing a systematic management regime across the road network that falls under Council's responsibility.

The aim is to strike a balance between optimal maintenance, minimising whole of life costs, user amenity and value for money in a risk management context. Roads vary in their construction and the environment in which they are required to function. Competing demands for resources across a full range of Council services means that the resources available to undertake new construction work and maintenance activities may not always meet community expectations.

A strategic approach to road management will ensure Council delivers the highest level of service within budget constraints. Regional roads as identified in MRWA's "*Roads 2030 Regional Strategies for Significant Local Roads Wheatbelt South Region Routes/Road*" are funded through State Government grants, managed and maintained by Council, while the local road network is funded, managed and maintained by Council, with the assistance of Federal Government grants (Roads to Recovery funding). Without these grants, the capacity of the Council to maintain the roads within the Shire is significantly diminished.

In terms of an overall Asset Management Process Council has adopted an Asset Management Plan Council Policies: 2.16 '*Significant Accounting Policies*' (noting that the policy addresses major depreciation periods for roads) and 11.3 '*Road Maintenance*' (noting that this policy replaces 11.3 '*Road Maintenance*'). This policy draws on elements of the Asset Management Plan and Council Policies and is also linked to the delivery of the community's priorities and expectations captured in Shire of Corrigin Strategic Community Plan 2017-2021 (Revised July 2019) and Shire of Corrigin Corporate Business Plan (Revised July 2019).

Role of Council

With the high levels of road infrastructure assets held by the Shire in the areas of roads, streets, footpaths, kerbs, drains etc there is a need to define minimum standard roads which reflect and meet community needs but not necessarily community expectations.

The Local Government Act 1995 defines the role of Council as follows:

s2.7. Role of council

(1) The council —

(a) governs the local government's affairs; and

(b) is responsible for the performance of the local government's functions.

(2) Without limiting subsection (1), the council is to —

(a) oversee the allocation of the local government's finances and resources; and

(b) determine the local government's policies.

With regard to the maintenance, renewal and upgrade of the road network, the role of Council is to assess the priorities and deliver a realistic and achievable program to the community based on available funding and resources.

Levels of Service / Intervention Levels

Levels of service describe what Council intends to deliver within an acceptable timeframe. Performance indicators and targets are used to measure how Council meets its obligations.

Factors such as the condition of the road asset, capacity and projected demands influence the Shire of Corrigin's ability to meet levels of service. Intervention levels are linked to the levels of service and define trigger points in asset conditions that determine the types of work to be carried out on an asset. The intervention levels and maintenance programs are the primary source of determining requests for service from members of the community. This approach aims to support consistent and equitable outcomes to our decisions.

The Shire of Corrigin will undertake a road inspection each year to monitor the condition of the road assets and assess whether the 10 Year Road and Footpath Program needs to be amended. Special attention is to be given to the maintenance of major transport and school bus routes. These routes should receive priority at the commencement of the winter maintenance grading season and at the beginning of the school year.

The schools and Public Transport Authority will be asked to provide up to date bus routes in February each year.

Risk Management

The identification and prioritising of risks will determine what resources are required to minimise any possible impact to the travelling public.

Budgeting

In formulating the road component of the Council's annual budget, every effort will be made to allocate appropriate funding to maintain and enhance the long term condition of the road network. Budget constraints and funding availability will determine the allocation of finances and resources and the implementation of policies and procedures associated with the road network.

Transport Infrastructure

Council has set standards for roads which are expected to meet current and projected transport demand. Local Governments are under pressure to meet the expectations of transport operators for bigger, faster and heavier

vehicles and must balance this demand against the limitations of funding and resources to upgrade and maintain the road network.

Many of the roads in the Shire of Corrigin have now been added to the Main Roads Heavy Vehicle – Restricted Access Vehicle (RAV) network. Council can request Main Roads WA (MRWA) to review the RAV rating at any time however in doing so, Council will have regard to the impacts of an increased RAV rating on the road network and the ability of the Shire to maintain a road to the RAV rating sought.

RAV rated roads have been assessed by MRWA and can be found on the MRWA website:

<https://www.mainroads.wa.gov.au/UsingRoads/HeavyVehicles/Pages/rav.aspx>

The Council has set a road hierarchy and associated maintenance and renewal levels and standard road. Works staff will be required to meet and maintain these standard roads as a performance measure across the organisation. Roads may be defined as follows:

- Major roads - Generally these will be regional and connector roads connecting town sites to other town sites in the region. Strategic freight routes and those identified as being regionally significant as in detailed MRWA's *Roads 2030 Regional Strategies for Significant Local Roads Wheatbelt South Region Routes/Road*.
- Limited Local Roads - Generally unsealed and servicing farms with annual average daily traffic 50 vehicles or less. Considerations such as school bus routes, harvest destinations and other factors will be considered.
- Feeder roads and streets - Generally are sealed, have an Annual average daily traffic greater than 50 vehicles and acting as connector roads.

Performance Measures – Major Roads and Collector Roads

The priority given to road maintenance due to the importance of retaining and preserving the existing road at an acceptable standard and it is the primary level of service delivery for the transport needs of the community. Road maintenance of major roads and collector roads will be as follows:

- Maintenance grading of roads, cleaning of back cuts, drains and culverts at times of optimum moisture content is to be a priority in works programming. Maintenance grading is to include the use of rollers for compaction (where applicable).
- Every major road in the Shire is to be maintenance graded at least once per annum during the optimum moisture period (where applicable).
- Additional maintenance or remedial grading will be programmed and implemented on an as needed basis in pre and post-harvest periods with emphasis on the school bus and tourist routes. Bus routes are to be graded at least once per year and inspected on a regular basis. Additional maintenance or remedial grading will be programmed and implemented on an as needed basis in pre and post-harvest periods with emphasis on the school bus and tourist routes (where applicable).
- Maintenance grading projects are to include the replacement of guide posts and signs (where applicable).
- Shoulders and drains on bitumen roads are to be maintenance graded during periods of optimum moisture content. This is to include compaction and brooming of loose material from the bitumen surface (where applicable).
- Pothole repairs are to be addressed within one week of being formally reported to the Manager of Works and Services. Reports to be in writing or by email for tracking purposes.
- Additional maintenance grading or remedial grading is to be programmed and implemented on an as needed basis in pre and post-harvest periods with emphasis on school bus routes with these being inspected at least once a month.
- Guide posts and signs to be replaced as needed as part of the road maintenance programme.
- Shoulders on bitumen roads to be maintenance graded in periods of optimum moisture. Work to include compaction and sweeping.
- Pothole repairs to be addressed within one week of being formally reported. This also applies to bitumen edge failures, culvert failures/blockages cleared and other road defects.
- All culverts and drains to be inspected prior to winter each year and any blockages cleared.
- Where back cuts can be identified on road verges these are to be graded at least once in each three years to retain the exemption under the Clearing of Native Vegetation Regulations and to provide a transport corridor clear of vegetation.
- Longitudinal and non-off drains on all roads are to be kept clear of vegetation and debris. Scouring is to be rectified as practical.

Performance Measures - Limited Local Roads

The priority given to road maintenance is due to the importance of retaining and preserving the existing road to an acceptable standard road and it is the primary level of service delivery for the transport needs of the community. In most instances, road maintenance of Limited Local Roads will be as follows:

- Every limited rural road in the Shire included on the list below is to be maintenance graded at least once per year during the optimum moisture period. Compaction is to be part of the road maintenance process. All roads that are reconstructed are to be cleared to a width of 14 (fourteen) metres.
- Additional maintenance or remedial grading will be programmed and implemented on an as needed basis in pre and post-harvest periods with emphasis on the school bus and tourist routes. School bus routes will be inspected regularly and where-ever possible will be graded twice per year. Additional maintenance or remedial grading of school bus routes will be programmed and implemented on an as needed basis in pre and post-harvest periods with emphasis on the school bus and tourist routes (where applicable).
- Maintenance grading projects are to include the replacement of guide posts and signs.
- Shoulders and drains on bitumen roads are to be maintenance graded during periods of optimum moisture content. This is to include compaction and brooming of loose material from the bitumen surface.
- Pothole repairs are to be addressed within one week of being formally reported to the Manager of Works and Services. Reports to be in writing or by email for tracking purposes.
- This also applies to culvert failures or damaged signs.
- This high priority designation has been given to renewal as this is a primary method of preserving and enhancing road assets in at least the existing standard road and it is the secondary level of service delivery for road infrastructure behind road maintenance.

Performance Measures – Town Roads and Feeder Access routes

The priority given to road maintenance due to the importance of retaining and preserving what is already in place at an acceptable standard road and it is the primary level of service delivery for the transport needs of the community. In most instances, road maintenance of feeder roads and streets will be as follows:

- Pothole repairs are to be addressed within one week of being formally reported to the Manager of Works and Services. Reports to be in writing or by email for tracking purposes.
- This also applies to bitumen edge failures, culvert failures or damaged signs.

Road Maintenance

Within the roads classifications works can be programmed based purely on asset preservation priorities and performance measures. Asset management priorities and delivery standard roads Council has and will focus on preservation methodologies across the transport modules to maximise community benefits through rigorous asset management.

The asset management processes will also be used to set performance measures across the organisation which is identifiable and quantifiable to ensure that nominated objectives and targets are met.

The provision of Sealed and unsealed road standards and are provided in Appendix 1 and 2. Appendix 3 provides guidelines for the temporary closure of unsealed roads during and after rainfall events.

To ensure continuity of road grading performance, the Policy also includes a Maintenance Grader Manual and declaration from the employee that they have read and understood the Maintenance Grader Manual at Appendix 4.

Road Renewal

Renewals must be properly considered in planning for the future and long term asset and financial management plans as failure to do so will result in the need for full or partial re- construction at a much higher cost than programmed renewals and ongoing maintenance.

The construction of major roads is almost always dependant on external source funding and work is generally at a high cost.

- a) Regional road grant applications to be a priority for renewal projects.
- b) Crack patching, pothole repairs and bitumen edge reinstatements and sealed road shoulder repairs to prevent edge drop-off and surface damage are to be programmed and done progressively.

Allocations of renewal expenditure will be based on retaining fit for purpose standard roads the road category traffic volumes, road safety and surface deterioration levels. Priority is given to renewal projects in grant fund applications (regional roads and roads to recovery) as works will significantly extend both the life and the standard road of the road/street. Additional by renewal projects score more heavily in regional road funds through the multi criteria analysis than upgrade or expansion projects.

Consideration may need to be given to the use of asphalt as surface renewal on town streets as this provides a greater surface life, it corrects surface anomalies, improves road safety, improves drainage and significantly improves town site aesthetics. The use of asphalt may also need to be considered for intersections of feeder and major roads to protect the road surface in the turning circle of heavy vehicles. Crack patching, pothole repairs, bitumen edge reinstatements and the prevention of edge drop-offs are of prime importance in the asset preservation of sealed roads.

The capacity of the Shire of Corrigin to extend or enhance road assets under existing and projected financial resources is limited. The Shire of Corrigin receives significant funds from Roads to Recovery however there is no certainty that this fund will continue or be distributed at the same level and under the same conditions as it has been in the past.

Roads which have been upgraded or expanded over the past ten years have been identified and programmed for renewal and maintenance as these are likely to be high value assets and will need re-seals, re-sheets in the next ten years.

The 10 Year Road and Footpath Program and Asset Management Plan outlines the proposed maintenance, renewal and upgrade of roads and footpaths in the Shire of Corrigin from 2019 to 2029. This plan will be reviewed annually and adjusted according to available funds and changes in road condition, traffic volumes and transport requirements.

Road Expansion

This component of road programming is creating an enhanced and higher value asset in the first instance and it necessitates planning for maintenance and renewal in the second instance.

The enhanced/upgraded roads would generally fall under the feeder and major roads categories and are of strategic importance in dealing with the agricultural production freight tasks. The financial capacity to continue to create new assets or to add value to existing assets is under threat and may no longer be realistic, achievable or sustainable into the future.

Expansion programming should be justified and quantified by relevant data and not be based on assumptions or sector demand. Road counts to verify traffic volumes, types of vehicles and equivalent standard road axle use must be quantified by official road counts. Road counters will be in use for a minimum of 40 weeks per year in peak and low seasons as specified and required for Main Roads WA grant applications.

Road Counters are to be undertaken on the following basis:

- These are to be in operation across the Shire of Corrigin's road network for a minimum of 40 weeks per year.
- Count periods for regional road grant roads are to be strictly in line with Main Roads WA guidelines and directions.
- Road count data is to be downloaded into the RAMM/Roman II system within one week hours of the count completion.

The priority given to road maintenance is due to the importance of retaining and preserving what is already in place at an acceptable standard road and it is the primary level of service delivery for the transport needs of the community.

The road categories determined by Council are strongly supported by the road listings under *Roads 2030 Regional Strategies for Significant Local Roads Wheatbelt South Region Routes/Road* which accredits the designated roads as regional roads with a qualification for funding under the State Agreement for regional road projects.

APPEXDIX 2: Sealing of Unsealed Roads at Sealed Road Intersections

Policy

The Shire is to consider sealing a minimum of 50 metres of unsealed road at sealed road intersections. Any sealing works is only to occur at the time of resealing the sealed road or when re-sheeting the unsealed road up to a sealed road intersection.

Objectives

To reduce maintenance costs of unsealed roads at sealed road intersections.

Guidelines

Any sealing works is only to occur at the time of resealing the sealed road or when the unsealed road is re-sheeting up to a sealed road intersection. The new seal on the unsealed intersecting road (under this policy) shall not be wider than the seal width of the existing sealed road. Each occurrence should be considered on its merits based on traffic volumes and maintenance history

APPENDIX 3 Temporary Closure of Unsealed Road During/After Rainfall Events

Policy

Unless otherwise stated, Council shall practice its rights and obligations to partially or wholly close, and subsequently re-open, any road under its responsibility in accordance with provisions of the Local Government Act 1995, and the Local Government (Functions and General) Regulations 1996.

Objective

To restrict the winter use of unsealed roads by certain vehicles to preserve the Shire's assets during and/or after adverse weather conditions.

Guidelines

Specifically, Council may close roads to all vehicles greater than 4.5 tonnes gross when conditions arise where damage to the structure and/or surface of the road is likely to occur. This would usually occur in winter after grading and when 10mm or more of rain is forecast.

Rain events greater than 10mm may require unsealed roads to be closed until road conditions are suitable, as determined by the Chief Executive Officer under Delegated Authority.

Shire Officers will minimise the disruption to the affected proponents (farmers and contractors) while still maintaining a functional unsealed road network by ensuring the least amount of the Shire is affected for the shortest possible period of time.

Notifications of weather related road closures will be made to adjoining local governments, via notices will be posted at the Shire Administration Office the Shire Website, Facebook posts and where applicable, using the Harvest Ban text messaging service.

Restricted Access Vehicle permit holders with current Letters of Approval from the Shire, local carriers and any other interested parties will be notified of weather related road closures by the most efficient means possible.

Where Council is required to issue local public notice, the issue of local public notice shall be in accordance with Section 1.7 of the Local Government Act 1995. Where a road closure inadvertently exceeds a period of twenty eight (28) days, the Council shall meet its obligations under s1.7 & s3.50(4) of the Local Government Act 1995 and S4, Part 2 of the Local Government (Function and General) Regulations 1996.

APPENDIX 4 Maintenance Grader Manual

Machine Maintenance and Operations

- A pre start check of machine is to be under taken before machines are started.
- Blades are to be rotated at the drivers' discretion to gain maximum life out of the cutting edge. When changing your blades always have the assistance of another person.
- When turning the blade check to make sure that blade does not come into contact with the steps, tires, any hydraulic fittings or the under body of the machine.
- The machine is to be greased at least every second day or every ten machine hours. Air cleaner is to be checked and cleaned out on a regular basis, do not go by the dust indicator on the side of the air cleaner. Make sure that the air cleaner to the air conditioning unit is checked regularly and cleaned.
- Tyre pressure is to be kept at the right pressures for the machine. If you are not sure ask your supervisor.
- Starting and all operations of machine are to be done only when you are sitting in the operator's seat.
- Keep windows clean at all the times so that your vision is not impeded. Keep inside of machine clean at all times so that the operations of the machine can be carried out in a safe manner.
- Do not move machine forward or in reverse until you have made sure it is safe to do so.
- Before shutting down the machine lower rippers and blade onto the ground. Always put your handbrake on when leaving machine unattended.
- Never place any part of your body under the blade or ripper if they are in the raised position.

Daily Operations

- It is expected that a minimum of five (5) kilometres of road (Winter Grade) is completed in a normal working day inclusive of all 7 cuts and drains.
- The fuel truck is to be filled at the end of the working day.
- Report all damage to your supervisor.
- If conditions are too wet, stop work and contact your supervisor
- The machine is to be parked in a clear area so not to cause an obstruction to the public or cause a traffic hazard.
- If signs and guide posts are observed to be missing or damaged, record the type and location and pass on to your supervisor.
- When grading past culverts ensure that you do not hit the top of the culvert and damage it. If damage does occur, record the details and pass on to your supervisor.
- All floodways are to be cleaned of any grass or overburden, windrows are not to be left that restrict the flow of water

Maintenance Grading Guide

- **Winter Grades;** are to be three (3) cuts across road and four (4) back as can be seen on diagram below this may vary according to the width of the road.
- Traffic Management Plans for maintenance grading shall be in place prior to the commencement of grading. Flashing lights are to working at all times.

- The first grader cut should be started on the opposite side of the road to where the final cut was made when it was last graded. (This will stop one side of the road losing its coarse base).
- All grass is to be graded off road before grading is to start.
- A crown with a least a 4% fall is to be maintained at all times. As shown on diagram below. We do not want flat roads.
- Where the batters on a road can be graded without damage to machines they are to be battered. If trees or shrubs are causing a traffic hazard they are to be removed. If a grader cannot do the job report it to your supervisor.
- If a load of gravel is needed to fill in potholes or a wash away, request for a load of gravel and repair damage while you are there.
- There is to be no windrow left at the completion of the grading. All rocks and sticks are to be removed off the road surface.
- Any excess soil is to be graded up the batter.
- No loose sand or rocks are to be left in the middle of the road, if it can't be compacted grade it off.
- All curves in the road surface are to be free of any loose stones or gravel.
- All cambers on the bends in our roads are to be maintained as can be seen on diagram below and shall not be graded so that there is a crown in the middle of the road.
- All off shoots to be cleaned out so that water will flow out the back of them. They are to be graded in a way so that the soil is not flat and water will flow down them not over the top of them. At least 2 cuts is preferred
- In order to avoid causing a traffic hazard, the start of an offshoot is not to start on the driving surface of the road, but in the drain as shown on diagram below.
- Windrows are not to be left so as to obstruct driveways, gateways or across intersections.
- To prevent the formation of potholes, all roads are to be graded up to all sections of bitumen
- Shrubs or grass affecting the line of site on a bend shall be removed for a distance of 180 metres.

- **Summer Grades;** are to be four (4) cuts across the road with the windrow left on the side of
- the road. Cuts are to be made in the windrow to allow water flow into the off shoots. To avoid a traffic hazard, the finished road surface shall be free from loose sand, rocks and sticks.
- The roller should be behind the grader on cut 1 compacting the windrow into the bitumen edge.
- A minimum amount of soil should be placed on the bitumen. Note: if the shoulder does not have enough width, lift the blade to ensure the windrow falls on the edge of the bitumen.
- The roller should make at least two passes following cuts two (2) and three (3).
- If grass covers the bitumen, cut it off prior to the commencement of grading.
- All offshoots should be cleaned out.
- To avoid a traffic hazard, the finished road surface shall be free from loose sand, rocks and sticks. If there is too much soil left on the road following grading, contact your supervisor to arrange the road to be swept.

Bitumen Shoulder Grading

Is to be done with one (1) cut up to the bitumen and two cuts off the bitumen as shown on the diagram below

Person Responsible:	Manager Works and Services
Date of Approval:	19 August 1998
Amended:	19 July 2016

Objective: The purpose of this policy is to provide a subsidy towards the construction of a vehicle crossover to a private property within the Shire of Corrigin.

Policy: Under the *Local Government (Uniform Local Provisions) Regulations 1996*, Regulation 15 Contribution to cost of crossing - Sch. 9.1 cl. 7(4) states:

- (1) Where —
- (a) a local government —
 - (i) under regulation 12 constructs or approves the construction of; or
 - (ii) under regulation 13(1) requires the construction of, a crossing giving access from a public thoroughfare to private land or a private thoroughfare serving the land; and
 - (b) the crossing is the first crossing in respect of the land; and
 - (c) the crossing is a standard crossing or is of a type that is superior to a standard crossing,

the local government is obliged to bear 50% of the cost, as estimated by the local government, of a standard crossing, but otherwise the local government is not obliged to bear, nor prevented from bearing, any of the cost.

- (2) In subregulation (1) —

first crossing, in respect of land, means the first crossing to the land or a private thoroughfare serving the land constructed under regulation 12 or section 358 of the *Local Government Act 1960* as in force at any time before 1 July 1996;

standard crossing means, subject to any local law as to what is or is not a standard crossing, a crossing of a kind that the local government, by resolution, decides is a standard crossing.

Rural Crossover

Where landowners require a new culvert crossover, Council will provide one crossover free of charge and where required, necessary pipework to protect the Shire's road assets. Should an additional crossover is required Council will provide the labour to install the culvert where the landowner pays for the culverts.

Townsite Crossovers

Council will provide one crossover per lot at 50% of the cost to rate payers. Additional costs involved in wider or additional crossover (less the footpath portion) will be at the cost of the ratepayer. Where Council undertakes road works affecting existing crossovers Council will bear the cost of replacement.

11.5. MINIMUM STANDARD OF FOOTPATHS AND VEHICLE CROSSOVERS

Policy Owner:	Works and Services
Person Responsible:	Manager Works and Services
Date of Approval:	18 September 1996
Amended:	19 July 2016

Objective: To ensure that the quality and standard of developments in the Shire are kept to a level to ensure the maximum benefit to both Council assets and adjacent properties.

- To ensure that development costs are kept to a minimum to assist property owners, but not allow unregulated development.

Policy:

Footpaths/dual use paths

Footpaths/dual use paths are to be constructed in concrete:

- to a depth of 75mm deep
- 25mpa concrete; and
- to a width of up to 2.0m.

Townsite crossovers

1. A standard crossing as referred to by the Regulation 15 of the Uniform Local Provisions Regulations comprises either:
 - A 150 mm compacted and water bound road base driveway, sealed with two coat of bitumen and topped with an approved aggregate.
 - A minimum of 75mm reinforced concrete over a compacted sub-base; or
 - other as approved by Council from kerb to the front boundary line and tied in or made contiguous with abutting structures (kerbs, footpaths and driveways).
2. The minimum width of the standard crossing shall be 3.0 metres for residences, 4.0 metres for commercial, 6.0 metres for light industrial, 6.0 metres for heavy industrial and 7.5 metres for service stations each with a 1.5 metre radius "fishtail" onto-the kerb line.
3. The gradient shall be positive 2% for the first 1.5 metres from the kerb line.
4. The Shire will contribute to one crossing per property only.
5. Where the ratepayer elects to construct a crossover, the Council's contribution shall not exceed 50% of the cost of the crossover as defined in paragraphs (1) and (2) and in Council's Fees and Charges Schedule. The square metres calculated shall be the length (from the road kerb to the property line) multiplied by the nominal width. The ratepayer must produce documents stating the full cost of the crossing.

Rural Crossover

1. A standard rural crossover is to be 8 (eight) metres wide.

11.6. STREET TREES

11.8. ROAD NAME CHANGES

Policy Owner:	Governance and Compliance
Person Responsible:	Chief Executive Officer
Date of Approval:	15 November 2000
Amended:	N/A

Objective: To provide easy identification of Shire roads.

Policy: Except as provided below, a road name shall not be proposed for a new existing road if that road name is currently in use within the Shire. This includes the use of:

- i) like-sounding names e.g. names with the addition/deletion of “s”; or
- ii) same name with a different suffix, e.g. road as opposed to street;
- iii) where a road is closed or access denied as it crosses a main thoroughfare, one (1) portion of the road shall be renamed.

Roads shall be named or renamed (as the case may be):

- so as to avoid repetition as outlined above specifically within suburbs; and
- from the approved reserved list of names for roads.

Road names are to be sourced from:

- persons, entities, places or events of historical or heritage significance and directly related to the Corrigin area and its neighbourhood;
- persons having a distinguished record of achievement within the Shire’s history.

A brief explanation of the relationship and significance of the name shall accompany all nominations for road names to the Shire.

Acceptance of nominated names for incorporation into a reserved road names list and for applying to particular thoroughfares will be put before Council for approval.

Support to name or rename roads in established areas can be obtained by applying to Council stating their reasons, and Council is to write to all landholders adjoining the affected road to obtain their views.

Once a name has formally been assigned to the road and adopted by the Geographic Names Committee, all relevant Government bodies, servicing authorities and Australia Post shall be notified of the final action taken and the commencement date.

11.9. ASSESSING APPLICATIONS TO OPERATE RESTRICTED ACCESS VEHICLES (RAV) ON LOCAL GOVERNMENT ROADS

Policy Owner:	Works and Services
Person Responsible:	Chief Executive Officer
Date of Approval:	19 March 2019
Amended:	N/A

Objective: The objective of this policy is to provide guidance when assessing an application to add or amend a road on the Restricted Access Vehicle network.

Policy: This policy authorises the CEO to conduct a preliminary assessment of RAV applications to ensure there are no obvious issues that would deem RAV access unsuitable and provide Heavy Vehicle Services with any comments relating to road condition, planning conflicts or development issues that may be impacted by adding the above road(s) onto the RAV network. If the road is deemed unsuitable it may be considered for a Restricted Local Access Permit (RLAP), or the matter brought to Council for consideration.

Background

A Restricted Access Vehicle (RAV) is a vehicle that exceeds a statutory mass or dimension limit as prescribed in the Road Traffic (Vehicles) Regulations 2014. RAVs can only operate on roads approved by Main Roads, under either an Order (Notice) or a Permit.

Operators may apply to add or amend a RAV route. It is Main Road WA's policy to consult with Local Governments before adding or amending a RAV route. The Shire of Corrigin may request that Main Roads WA consider certain conditions for the RAV route.

Statutory Authority

Road Traffic (Vehicles) Regulations 2014
Road Traffic (Vehicles) Act 2012
Road Traffic (Administration) Act 2008
Road Traffic (Administration) Regulations 2014
Road Traffic Code 2000
Land Administration Act 1997 (Sec 55) Local Government Act 1995
Main Roads Act 1930

Assessing Support

The Shire of Corrigin must first determine if it supports the application and an assessment is to be undertaken by the Manager of Works, suitably qualified officer or consultant. The assessor must record the basis for the decision and these records should accompany the application when it is referred to Council for approval.

The following criteria should be considered.

- Is the road identified as a link on the Strategic Road Freight Network on a regional or local plan?
- What is the designated Main Roads hierarchy?
- Does the route provide connectivity to activity centres?
- Does the route provide connectivity to the State road network?

- Is the proposed RAV rating consistent with the connecting routes?
- If the route crosses into adjacent Shires, have they been consulted?
- Are there alternative routes that would be preferable for the RAV access?
- Does the route impact community facilities e.g. schools, hospitals and town sites?
- Will the proposed access impact public safety?
- Is the proposed access likely to result in extraordinary damage to the road pavement?
- Consult the Local Government Heavy Vehicle Charging Policy.
- Are there any bridges or other structures that are clearly below the standard required for the proposed access or likely to result in dangerous operating conditions?
- Are there any known physical or topographical constraints?
- Is the road listed in ROADS 2030?

A preliminary assessment will be conducted using the following criteria:

- Road width assessed to ensure the road is suitable for the level of RAV access being requested.
- Steepness of longitudinal grades assessed to ensure they are within the specified limits.
- Stacking and sight distances of any railway level crossings on the route.
- Sight distances at intersections must be checked to ensure they comply with the guideline requirements.

Operating Conditions

Standard Operating Conditions

The Shire of Corrigin may recommend that operating conditions be applied as a condition of the support for a RAV assessment. Main Roads will apply all or some of the conditions below to very low traffic volume roads when the road's width does not meet the minimum requirements.

These and other similar operating conditions may be applied to the assessment of other roads.

1. When travelling at night, the RAV must travel at a maximum speed of 40km/h and display an amber flashing warning light on the prime mover. Where RAVs are limited to 40km/h advisory signs must be installed for safety to other vehicles who may unexpectedly catch up a vehicle at night.
2. No operation on unsealed road segment when visibly wet, without Road Owners approval.
3. Headlights must be switched on at all times.
4. Speed restrictions. (*40 km/h or 60 km/h in accordance with the Appendix C Low Volume Rural Road Minimum Widths of the Standard Restricted Access Vehicle (RAV) Route Assessment Guidelines).

5. Direct radio contact must be maintained with other RAVs to establish their position on or near the road (suggested UHF Ch 40).
6. Road not to be entered until driver has established by radio communication that there is no other RAV on the road travelling in the opposing direction.
7. Operation is not permitted while the school bus is operating on the road. Operators must obtain school bus timetables; or where direct contact can be made with the school bus driver, operation is permitted once the school bus driver confirms all school drop offs/ pick- ups have been completed on the road.
8. The Operator must obtain written approval from the Road Owner. The approval letter must be carried in the vehicle and produced upon request. Commonly referred to as a CA07 condition.

Other Operating Conditions

The Local Government may consider the need for additional operating conditions for example:

- Road not to be used as a through route. For local delivery and pick up only. Driver must carry proof of local delivery or pick up.
- Empty travel only
- Single lane operation only
- Laden ascent travel only
- Speed restrictions
- Warning signs to be installed in accordance with Australian Standards and removed when haulage completed
- One truck movement at a time
- Truck entering signs to be erected by the Local Government and removed when not in use.
- Turning restrictions
- No operation during specified months or periods
- No operation on certain days e.g. Saturdays, Sundays or Public Holidays
- No movement permitted between specified times.

The Local Government must justify the need for the additional conditions, which will be approved and applied at Main Roads discretion. Only conditions applied by Main Roads are enforceable.

Restricted Local Access Period Permit

If the road is deemed unsuitable for addition to the RAV network, the assessor may consider recommending to Main Roads that the application be considered for a Restricted Local Access Permit (RLAP). The RLAP provides access to the final destination of a particular transport task. This may include access to a farm gate or local business. A safety assessment is conducted by Main Roads taking into consideration the specific vehicle type and operation. The permit may be issued to a particular vehicle combination and/ or length with particular operating conditions. The assessor should consider the required operating conditions and make recommendations when referring the application back to Main Roads.

Timeframe

The Shire of Corrigin will endeavour to return the assessment to Main Roads within four weeks of receipt. If Main Roads do not receive support from the Shire of Corrigin within three (3) months, it is acknowledged that Main Roads may undertake an assessment of the road and add to the relevant network if deemed suitable.

12. FOOD SAFETY COMPLIANCE AND ENFORCEMENT POLICY

12.1. FOOD SAFETY COMPLIANCE AND ENFORCEMENT POLICY

Policy Owner:	Governance
Person Responsible:	Environmental Health Officer
Date of Approval:	18 October 2011
Amended:	N/A

Objective:

Scope and Objectives

Scope:

The Department of Health (WA) administers the *Food Act 2008* (The Act). The Shire of Corrigin is a designated enforcement agency under the provisions of the Act.

The objectives of the Act as defined in Section 3 of the Act include the following:

- to ensure food for sale is both safe and suitable for human consumption,
- to prevent misleading conduct in connection with the sale of food,
- to provide for the application in the State of the Food Standards Code.

The Food Standards Code means the Australia New Zealand Food Standards Code as defined in the *Food Standards Australia New Zealand Act, 1991* of the Commonwealth of Australia. Enforcement of the Food Act is essential for the effective management of food safety risks and the prevention of misleading conduct in connection with the sale of food. Accordingly the Department of Health (WA) and the Shire of Corrigin are committed to ensuring there is a high level of compliance with the Food Act and Regulations.

This policy sets out the Shire's policy on compliance and enforcement that will facilitate the effective achievement of the regulatory goals of the Act in a manner that is:

- Authorised by law;
- Procedurally fair;
- Accountable and transparent;
- Consistent; and
- Proportionate.

The policy recognises that most food businesses want to comply with the law and produce food that is safe and correctly labelled. The compliance and enforcement role of the Shire of Corrigin is to protect consumers from a minority who may not act in the interests of food safety.

The enforcement options of this policy are not required to be enacted on food businesses who act responsibly and it is the Council's aim to provide education to food handlers to maintain the safety of food products produced or sold within the Shire of Corrigin.

It is however important that these enforcement options are clearly understood so that any action the Council takes against a food handler or food premises is within the scope of the law and is appropriate for the given circumstances.

The range of offences under the Act and Regulations vary greatly in their seriousness and accordingly a variable range of penalties and enforcement options that are available under the Act and Regulations.

This policy describes the options that are available and provides details of the matters that will be considered in their application toward achieving the objectives of the Act.

This policy also sets out the principles the Council will apply in its compliance and enforcement activities. Breaches of the Act are classified as criminal offences and penalties of up to \$500,000 and/or two years imprisonment apply.

Objectives:

The objectives of this policy are:

- To provide transparency to consumers and industry on how the Shire of Corrigin will make decisions on enforcement action;
- To guide decision making and action by Council Officers in the use of enforcement options;
- To use regulatory implements in such a way as to best achieve the Council's strategic and operational objectives.

Compliance and Enforcement Principles

As a regulatory authority the Shire of Corrigin will endeavour to:

- Act in the public interest;
- Act consistently, impartially and fairly according to law;
- Promote consistency through effective liaison with field staff and the adherence to policies and procedures;
- Ensure we do not discriminate on the basis of race, religion, sex, national origin or political association;
- Ensure that enforcement action is taken against the right person for the right offence;
- Ensure that all relevant evidence is placed before the courts or appeals tribunals;
- Make food businesses aware of their legal obligations through the widest possible dissemination of information;
- Explain the benefits of compliance to food businesses and discuss specific compliance failures or problems;
- Provide advice on mechanisms that can be used by food businesses to improve compliance;
- Confirm advice in writing when requested and provide written advice in a clear and simple manner, explaining what and why remedial work is to be undertaken, over what time period and ensure that all legal requirements are clearly explained;
- Advise proprietors of their right of appeal where provided by law;
- Provide alleged offenders with an opportunity to discuss the circumstances of their case; and
- Seek the support of industry leaders to influence compliance levels.

Decision Making Criteria

Each case will be considered individually and the appropriate enforcement action to be taken determined on the particular circumstances of the case.

The Prosecution Policy of the Commonwealth states:

“The objectives previously stated – especially fairness and consistency – are of particular importance. However, fairness need not mean weakness and consistency does not mean rigidity.

The criteria for the exercise of this discretion cannot be reduced to something akin to a mathematical formula; indeed it would be undesirable to do so. The breadth of the factors to be considered in exercising this discretion indicates a candid recognition of the need to tailor general principles to individual cases” (1)

The following issues need to be considered and balanced in making a decision as to the type of enforcement action, if any, that is applied:

- The knowledge of the alleged offender as to the consequences of their actions;
- The degree of care taken by the alleged offender to ensure they did not commit an offence;
- The capability of the alleged offender to understand, cope and comply with the relevant requirements;
- The alleged offender’s antecedents and background, including culture and language ability;
- The openness, honesty and cooperation demonstrated by the alleged offender;
- The contrition demonstrated by the alleged offender;
- Any mitigating or aggravating circumstances;
- The culpability of the alleged offender and role played by other parties that may have contributed to the offence;
- The timeliness, the age, duration and magnitude of the offence;
- The totality of offences that may have been allegedly committed;
- The proportionality of the selected enforcement option so that the action will not be unduly harsh or oppressive;
- The prevalence of the alleged offence within the industry and any need for a deterrent effect;
- The difficulty and resources expended by the Shire of Corrigin in investigating and proving the elements of the particular offence or the type of offence;
- The efficiency and cost to the Shire of Corrigin of the compliance and enforcement option that is used;
- Whether the enforcement action required to achieve the objectives of the Act are appropriate;
- Whether or not the enforcement action would be perceived as counterproductive – for example, by bringing the law into disrepute;
- Whether or not the offence is of considerable general public concern;
- The necessity to maintain public confidence in the enforcement of the Act;
- The existence of any risk to public health and the nature and extent of that risk;
- The extent to which consumers have been defrauded;
- The need to protect the consumers either in or visiting the Shire of Corrigin.

The overriding consideration in taking enforcement action will always be the public interest.

(1) Commonwealth Director of Public Prosecutions 2004, Prosecution Policy of the Commonwealth.

Privacy

The Shire of Corrigin must observe the privacy principles set out in the *Freedom of Information Act 1992*. Information relating to compliance and enforcement action will generally be made available only where consistent with the *Freedom of Information Act 1992* and Section 121 of the *Food Act 2008*.

Policy:

Application of Compliance and Enforcement Options

A range of compliance and enforcement options are available to Authorised Officers. This section gives guidance on when these options may be applied. The decision-making criteria outlined in Section 3 will be considered in deciding which, if any, enforcement action is appropriate in each case.

Types of Compliance and Enforcement Action

The compliance and enforcement options available to Authorised Officers include:

- Verbal advice;
- Warning letters;
- The issuing of a statutory Improvement Notice which requires cleaning, repair, replacement, revision of food safety program, implementation of a food safety program or implementation of the Food Safety Standards;
- The issuing of a Prohibition Order which controls certain activities where there is failure to comply with an Improvement Notice or to prevent or mitigate a serious danger to public health;
- The seizure of food, vehicles, equipment, and labelling or advertising materials which do not comply with a provision of the Act or Regulations;
- The issuing of a Penalty Infringement Notice;
- The institution of proceedings in the Magistrates Court;
- Request for court orders for corrective advertising by a person found guilty of an offence;
- Publication of the names of offenders immediately after conviction.

Verbal Advice and Warning

Authorised Officers will routinely give advice on compliance to food businesses. This advice will relate to principles of food safety and explain the benefits of compliance or the purpose of the law. Verbal warnings should normally only be given for extremely trivial offences, where the offence is only of a technical nature or where there is insufficient evidence to justify a warning letter.

Written Warnings

Where there is evidence that minor breaches of the Act have occurred, written warning may be issued at the discretion of the Authorised Officer. Written warnings may be inappropriate where there are a large number of minor offences on one occasion within one food business. Similarly written

warnings will not normally be issued for a series of offences within a relatively short period of time or in those cases where written warnings have previously been issued.

The totality of the offences should be considered in deciding the appropriate course of action. Where significant non-compliance is evident, more significant enforcement action may be appropriate.

Warning letters will detail the exact nature of the offence, required remedial action, cite relevant clauses of the legislation, and specify the maximum penalty for the offence and the intention of the Council to enforce the legislation. Warning letters will be followed-up within no less than 3 months to ensure the required actions have been taken. Further written warnings will not be issued for a subsequent similar offence except in exceptional circumstances.

Improvement Notices

Authorised Officers may serve Improvement Notices under Section 63 of the Act. An Improvement Notice is an order that may require, in relation to premises, food transport vehicles or equipment, cleaning, repair, replacement, and relating to the handling of food, revision of a food safety program, implementation of a food safety program or implementation of the Food Safety Standards. The orders may also require food to be handled in a specified way or for a specified purpose.

Improvement Notices should be issued with the same considerations as for a warning letter but should also only be used where there is an intention to proceed to a Prohibition Order following non-compliance with that Improvement Notice. In other circumstances a warning letter or other enforcement options should be considered.

An Improvement Notice must specify the specific legislative provision to which it relates and may specify the particular action to be taken by a person. The Improvement Notice must specify the date by which compliance must be achieved.

While extension of the date of compliance is at the discretion of the Authorised Officers, extensions of time for compliance will not be granted for matters related to cleaning or food handling without the prior approval of the CEO. Appeals concerning Improvement Notices will be considered by the CEO.

Improvement Notices must be served on the proprietor of the food business. The person on whom an Improvement Notice has been served must be provided with a copy of the Improvement Notice upon request. Should the proprietor wish to seek an extension of time for compliance, that request must be in writing stating the reasons the extension is being sought. That request is to be submitted to the Shire of Corrigin before the date of compliance as indicated in the Notice.

Improvement Notices are differentiated from warning letters in that they are a statutory notice that may lead to the issuing of a Prohibition Order under Section 65 of the Act. The issuing of an Improvement Notice does not preclude the issuing of a Penalty Infringement Notice or the institution of court proceedings in circumstances where these types of actions may be warranted.

Prohibition Orders

Prohibition Orders may be issued where an Improvement Notice has been issued and there has been a failure to comply with the Improvement Notice by the date of completion **or** where the issue of a Prohibition Order is necessary to prevent or mitigate a serious danger to public health.

A Prohibition Order will take a form that prohibits the handling of food on specified food premises, vehicle or equipment, or that food is not to be handled in a specified way or for a specified purpose.

It should be noted that Section 8 of the Act defines food handling very broadly, including activities such as collection, transporting, storing or displaying food. Breach of a Prohibition Order will normally result in prosecution.

A Prohibition Order will remain in place until a Certificate of Clearance is issued following a written request for an inspection. An inspection will be undertaken within 48 hours of a written request being made by the proprietor of the food business to the Shire of Corrigin or to the Authorised Officer who made the order. If an inspection is not made within 48 hours of the written request for an inspection, a Certificate of Clearance is deemed to have been granted.

Section 69 of the Act provides for appeal to the State Administrative Tribunal (SAT) if there is a refusal to issue a Certificate of Clearance. Section 70 of the Act provides for compensation to be paid if there were no grounds for the making of the Prohibition Order. Prohibition Orders may only be issued by the CEO, being a duly authorised delegate under Section 118 of the Act. A brief of evidence sufficient to prove all elements of a prosecution will be the normal standard required prior to the issue of a Prohibition Order.

Seizure Powers

Authorised Officers have power under Section 40 of the Act to seize food, vehicles, equipment, and labelling and advertising materials which the Authorised Officer reasonably believes do not comply with a provision of the Act or Regulations or which there is evidence that an offence has been committed.

Whilst seizures are undertaken to collect evidence or to prevent further offences being committed, they effectively impose a penalty upon the person from whom the food, vehicle, equipment and labelling or advertising materials is seized. The impact of a seizure should be considered in the application of any other enforcement action. Persons from whom items are seized must be provided with a statement that describes the items seized, states the reasons for the seizure and the address at which the items will be held.

Where it becomes evident that there has been no contravention of the Act or Regulations in relation to items which have been seized they are to be returned as soon as possible to the person from whom the items were seized. The person from whom items have been seized must also be informed of their right under Section 57 to appeal within 10 days of the seizure to the Magistrates Court for an order disallowing the seizure. Compensation may be paid if there has been no application to a Magistrates Court and no contravention of the Act or Regulations had occurred in relation to the seized items.

Penalty Infringement Notices

An Infringement Notice is a notice to the effect that the person to whom it is directed has committed a specified offence and that, if the person does not wish to have the matter dealt with by a court, the person may pay the specified amount for the offence within a specified time.

A penalty notice is issued under Section 126 of the Act. The notice requires payment of a specified monetary penalty, unless the person alleged to have committed the offence elects to have the matter dealt with by a court.

When an Authorised Officer during an inspection of premises, vehicles or equipment, detects or observes conditions or circumstances that give rise to the potential for the issue of an infringement notice, verbal advice will be given, at that time, to the person allegedly responsible for the alleged offence that an infringement notice may be issued for that alleged offence.

Prior to an infringement notice being issued, Authorised Officers must prepare briefs of evidence, which prove each element of the alleged offence to the standard required for prosecution. Further than establishing a prima facie case there must also be a reasonable prospect of a conviction being secured if the alleged offender chooses to have the matter heard in a court.

That brief is to be submitted to the Principal Environmental Health Officer for consideration and authorisation for the penalty notice to be issued.

When a decision has been made that an infringement notice is to be issued, that notice will be forwarded by post or hand delivered to the person alleged to have committed the offence. The infringement notice is to be accompanied by a written advice giving the reasons for the issuing of the infringement notice in that instance and also providing advice and information as to the means or requirements for the remedying or rectification of that condition or circumstance that gave rise to the infringement notice.

The decision-making criteria outlined in Section 3 will be considered in the issuing of an infringement notice. Infringement notices provide a cost effective and efficient method of dealing with offences and will generally be sufficient response to breaches of the Act.

Infringement notices should not be used where the penalty is considered totally inadequate for the offence or where the penalty is likely to have no impact on the proprietor of the food business.

Infringement notices are not available for serious offences contained in Part 3, Division 1 of the Act. These relate to the handling of food in a manner that a person knows will render, or is likely to render, the food unsafe or where the food is handled in a manner that the person ought reasonably to know is likely to render the food unsafe.

A payment of a penalty notice is not an admission of liability and the person is not liable to any further proceedings for the alleged offence.

Prosecution

Prior to any prosecution being launched Authorised Officers must prepare briefs of evidence which prove each element of the alleged offence to the

standard required for prosecution. That brief is to be submitted to the CEO for consideration and authorisation for the prosecution to proceed.

The resources available for prosecuting are finite and should not be expended pursuing inappropriate cases. The decision-making criteria outlined in Section 3 will be considered in making a decision to prosecute. Prosecution will normally be reserved for the more serious breaches.

While the Act provides that proceedings must be commenced within 6 months for matters relating to food samples and 12 months for other matters, all matters should be prepared for hearing as quickly as possible.

The Act extends liability to a wide range of persons who may be involved in some way with contraventions of the Act or Regulations, including employees, proprietors, and individual directors of companies. Where the Shire of Corrigin has selected prosecution as the appropriate option, the Council will not necessarily proceed against all those who may be potentially liable under the legislation.

Prosecutions are eligible for publication by the Department of Health (WA).

Conclusion

This policy provides information as to the processes and actions that will be followed in the cases dealt with under the *Food Act 2008*, however due to the variety of circumstances that may be encountered through the range of inspections and enforcement procedures, the policy cannot be used to limit the discretion of the Shire of Corrigin to take any enforcement action for the purposes of obtaining high standards of food safety.

The policy is to be interpreted as general guidance on how the Council will undertake enforcement action. It should further be recognised that it is not the aim of the Shire of Corrigin to undertake enforcement action except where absolutely necessary and that priority should be given to educating food handlers to prevent food safety standards from being compromised in any instance.
