A monthly review of credit card use is independently assessed by the Manager Finance, to confirm that all expenditure has been incurred, is for the Shire of Corrigin and has been made in accordance with Council policy, procedures and the Local Government Act 1995 and associated regulations. The review by the Manager Finance also ensures that misuse of any corporate credit card can be readily detected.

#### BACKGROUND

Council previously adopted a Risk Management Framework - Policy and Procedures to document the Shire's commitment and objectives regarding managing risk that may impact the Shire's strategies, goals or objectives.

The Risk Management Framework - Policy and Procedures document was initially prepared with assistance from LGIS as part of the overall Risk Management Governance Framework.

The policy assists in the appropriate governance of risk management within the Shire by providing:

- 1. transparency of decision making;
- 2. clear identification of the roles and responsibilities of the risk management functions; and
- 3. an effective governance structure to support the Risk Framework.

Adoption of this revised policy will assist in compliance with the Regulation 17 of the Local Government (Audit) Regulations 1996.

As part of an ongoing effort to improve governance and compliance the annual and long service leave will continue to be monitored with a view to reducing excess accruals in the near future.

#### COMMENT

The Audit and Risk Management Committee will continue to review reports, policies and procedures to reduce the overall risk to the organisation.

| Resource Plan)          |  |

#### SUMMARY

The Shire of Corrigin Long Term Financial Plan has been reviewed and is provided for consideration and adoption.

#### BACKGROUND

Following a period of community consultation in 2017 the Shire of Corrigin developed a new Strategic Community Plan 2017 – 2021. A Corporate Business Plan outlining actions to achieve the desired strategic direction was developed at the same time and revised in July 2018.

The Corporate Business Plan is underpinned by, and links through to, a range of supporting and informing polices, strategies and plans such as a Workforce Plan, Asset Management Plan and Long Term Financial Plan.

#### Long Term Financial Plan

The Long Term Financial Plan (LTFP) is the mechanism that enables local governments to determine their capability to sustainably deliver the assets and services required by the community. It allows the local government to set priorities, within its resourcing capabilities, to deliver short, medium and long term community priorities.

The LTFP is a ten year rolling plan that informs the Corporate Business Plan to activate Strategic Community Plan priorities. From these planning processes, annual budgets that are aligned with strategic objectives can be developed.

The Shire of Corrigin engaged Moore Stephens to assist in the development of the LTFP and incorporated plans for asset upgrade, renewal and replacement. The combined document is referred to as the Strategic Resource Plan.

#### COMMENT

The review of the LTFP has a direct impact on the ability to meet the goals set within the Corporate Business Plan, should there be any major impact, Council may need to reconsider the Corporate Business Plan and update priorities.

The LTFP has been revised along with asset management plans with assistance from Moore Stephens and the resulting Strategic Resource Plan is presented to Council for endorsement.

#### 8.2.3 VISION CHRISTIAN MEDIA – HOSTING AGREEMENT

#### SUMMARY

This item relates to formalising a Host Site Agreement between the Shire and United Christian Broadcasters Australia trading as Vision Christen Media for existing radio transmission equipment installed at the Telstra CDMA tower at Lot 625 (No 68) Camm Street.

#### BACKGROUND

The Shire of Corrigin has received correspondence from United Christian Broadcasters Australia Ltd seeking to formalise the tenure arrangement for the existing Vision Christian Media – Corrigin 88.0FM WA equipment sited on the Telstra mast at 4 Camm Street.

An application was presented at the Ordinary Council meeting on 13 June 2001 and permission was granted to affix a small antennae and satellite dish to the bushfire radio mast. The permission was conditional on existing facilities such as radio mast, CDMA reception and bush fire network not being adversely affected and noted that Vision Christian Media would be asked to remove the equipment if any problems occurred.

A draft model agreement prepared by United Christian Broadcasters Australia seeks permission to erect, construct and maintain transmission equipment for the purpose of transmitting broadcast signals, with all reasonable access being permitted. This agreement is based on:

- A 'no cost' rental agreement in favour of United Christian Broadcasters Australia;
- The Shire being indemnified in relation to the installation, use and maintenance of the United Christian Broadcasters Australia's equipment;
- The Shire covering the cost of electricity, which would be negligible;
- The Shire agreeing to allow access to the site for United Christian Broadcasters Australia subject to reasonable notice being given;
- A 5 year period, with possible extension
- The ability to terminate the lease with notice period of 3 months;
- The United Christian Broadcasters Australia being responsible for their own
  Occupational Safety and Health programs;
- The United Christian Broadcasters Australia being responsible to restore the site as far as practical to its original condition.

A copy of the draft agreement is provided as Attachment 8.2.3 – Vision Christian Media Attachments.

#### COMMENT

It seems that the transmission equipment has been in place for some years and this draft agreement will formalise the existing arrangement.

The draft agreement is considered adequate with the exception of a requirement for Christian Vision Media to demonstrate that public liability insurance cover is maintained. The CEO suggests that an additional provision be added to require Christian Vision Media to provide evidence of a minimum of \$10million insurance cover.

#### SUMMARY

The report seeks to update Council on the reinstatement works associated with the WANDRRA AGRN743 claim at several locations across the Shire's local road network.

#### BACKGROUND

Over the period of January/February 2017 the Shire of Corrigin received severe rainfall resulting in significant flooding. Damage was widespread throughout the Shire, with the majority of the damage confined to the south–west corner and which mainly consists of road carriageway and road shoulder scours, areas where unsealed gravel road pavements have been washed away, destroyed or blocked piped culverted, destruction or dislocation of culvert headwalls and silting of table and cut-off drains.

#### COMMENT

Core Business Australia Pty Ltd (CORE) as Supervisor for '*AGRN743 Corrigin Flood Recovery Minor Works*' has prepared Project Progress Report of the WANDRRA works as follows:

#### **Contractor Administration**

Recent Work Cycles: Please refer the Schedule of Construction and Roster

#### Progress to date

The works programme has been slow during August due to wet weather which is to be expected however the work rate has increased during September due to longer days and efficency inititives.

#### Methodology

Efficiency Initiatives

- Lay off Semi water truck until summer made possible by sourcing water from dams
- Reduce volume of both gravel and water.
- Leave windrows out overnight place cones around windrow.
- Utilize shared silt and gravel truck circuit when possible

#### Recommendations

#### Cement Stabilisation

The cost of cement stabilized floodways is claimable through WANDARRA therefore we should be taking advantage of this opportunity.

There are two ways to construct cement stabilized floodways. One is to blend cement and gravel in the pit then lay and compact material on the road. If the gravel is already laid out its more effective to use a road stabilizer. The cost of using the stabiliser will be an additional \$1,500/floodway therefore a decision needs to be made on the purchase of cement ASAP.

#### Gravel Sources

We are having to locate more gravel sites as some pits have been exhausted. We are currently at Steve Baker's property. PIT G25 costs can be further reduced by stockpiling gravel pits closer to the area to be re-sheeted.

#### <u>Schedule</u>

Over the next two swings we recommend another truck is engaged to haul gravel on the long lead from Hickey Pit to the North-East section of the Shire. This will result in more efficient use of equipment such as the grader and rollers. In addition the silt crew will be able to continue work.

We expect the silt crew to have completed silt removal by the mid - November.

Culvert crew should be finished by Christmas.

- Moves by RoeROC have been sound now Avon Waste carry risk of providing service, if tonnage drops not a major issue for Councils.
- Invitation be extended to Avon Waste to attend the RoeROC June meeting each year.

No proposed changes to recycling operations – Shires continue to promote and educate residents around recycling waste and reduction in contaminants.

### 7.3 Environmental Health – Will Pearce

- Local laws on top of current issues though there will be considerable work at time of finalisation of local laws. Shires will need to be aware of 10 day deadline to have local law processed. Recommended that RoeROC raise with WALGA a review of the Joint Standing Committee processes that contribute to the review of local laws as part of a red tape reduction review.
- Suggested refer to Dept. Local Government as part of the LG Act Review and then prepare item for Zones to raise.

### RESOLUTION 03/092018

That the RoeROC Secretary make a submission to the Dept. of Local Government, Local Government Act Review in relation to the difficulties and adoption processes for local laws.

Carried

- Summer Season commencing with Aquatic Centres requiring water testing to open soon and event season is kicking off with a number of big event licensing processes underway for the region. E.g. Kulin Bush Races and Newdegate.
- Rubbish Overflow Corrigin should be aware that Kulin Bush Races always results in additional rubbish being deposited in bins in Corrigin. Corrigin may want to consider a skip or similar. Kulin provided a side tipper last year and this reduced the waste taken elsewhere.
- EHO reported that a number of additional accommodation applications had been processes recently across all Shires for a variety of accommodation including farm and tourism operations. Narembeen Shire indicated that the company involved in the mining operation would be housing people in Narembeen not on site.

### 8. Other Matters

### **Bendering Tip Site**

**8.1 Kondinin Shire -** Works Manager Kondinin has indicated that the gravel removed from the trench at Bendering was suitable for road materials. Has requested use of the gravel.

**8.2 Use of Gravel -** RoeROC agreed that the Shire of Kondinin could use a portion of the gravel in lieu of RoeROC paying rates on the property, as long as sufficient fill remained to cover the rubbish in the trench; as the trenches work towards the east.

**8.3 Update Bendering Plan and Review -** The Works Managers, Contractor and Kulin CEO met to review the operations and trench requirements in August 2018. Was suggested that an annual tip inspection and planning session take place with the contractor in June each year on site and that the Secretary arrange for Plan to be updated each year.

**8.4** Water Corporation – Standpipe Management project – All Shires reported that Water Corporation had provided details of the changes to fees and pricing for standpipe water. Each Shire had different arrangements, but it is apparent that Water Corporation are trying to reduce consumption by setting significantly higher fees. Shires discussed standpipe and swipe card arrangements – and questioned if a common standard could be achieved amongst Roe Shires so that buying power could reduce costs.

Secretary to enquire with Roe Shires on standpipe setup and equipment types to determine if better buying can be achieved for these products.

Shires also discussed the use of non-Water Corporation supplies and if there was any way we could co-ordinate alternate supplies to standpipes for roadworks etc.

**8.5 Roads Forum Alice Springs** – Shires were questioned as to whether any were attending the Roads Forum in Alice Springs. Most indicated that they would be attending the Roads Forum in Perth on the 16<sup>th</sup> October 2018.

**8.6 MOU – RoeROC –** Previous MOU between Shires has expired and is due for renewal. CEO's to meet to prepare draft.

**8.7 Lake Grace Invite** – If next RoeROC meeting is able to arrange Rural Health West as a Guest – invitation be extended to Lake Grace Shire to attend discussion and RoeROC meeting

**8.8** Meeting of CEO's – CEO's to meet in Kondinin at 12.00noon on Thursday 4<sup>th</sup> October to resolve items/drafts etc. before next meeting.

**8.9 RoeROC Dinner at WALGA Convention week** – Chair Barry West thanked Narembeen Shire for organising the RoeROC dinner during Local Government convention week - the dinner was very successful.

**8.10** Next Meeting – Next meeting of RoeROC to be held in Kulin on Thursday 1<sup>st</sup> November 2018.

### 9. Closure

There being no further business, the meeting was declared closed at 3.30pm.

### GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

### **CRITICAL ACCOUNTING ESTIMATES**

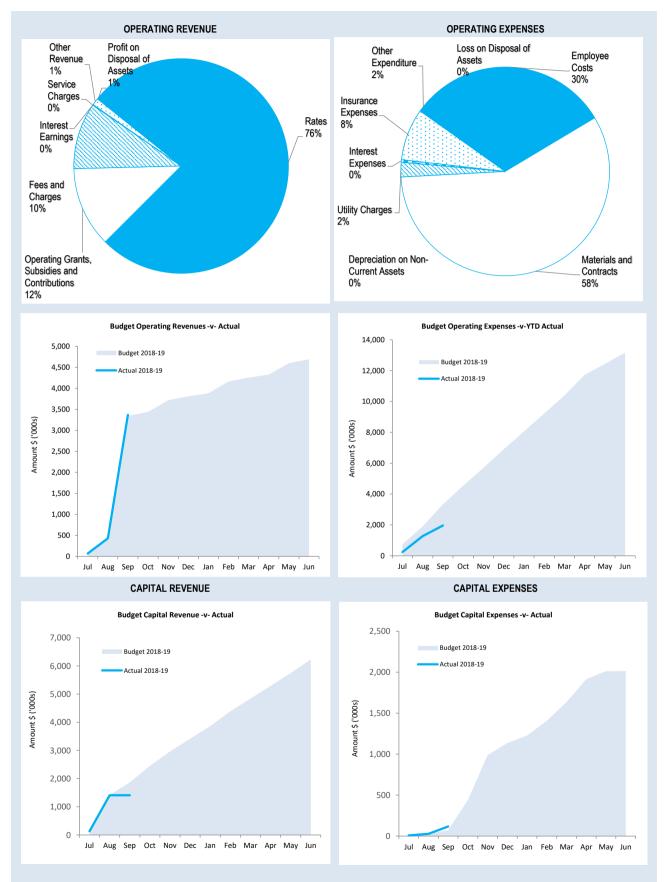

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

### SIGNIFICANT ACCOUNTING POLICIES

### CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non current based on Council's intentions to release for sale.

### EMPLOYEE BENEFITS

The provisions for employee benefits relates to amounts expected to be paid for long service leave, annual leave, wages and salaries and are calculated as follows: (i) Wages, Salaries, Annual Leave and Long Service Leave

(i) wages, salaries, Annual Leave and Long Service Leav (Short-term Benefits)

The provision for employees' benefits to wages, salaries, annual leave and long service leave expected to be settled within 12 months represents the amount the City has a present obligation to pay resulting from employees services provided to balance date. The provision has been calculated at nominal amounts based on remuneration rates the City expects to pay and includes related on-costs. (*ii*) Annual Leave and Long Service Leave (Long-term Benefits)

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the project unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match as closely as possible, the estimated future cash outflows. Where the City does not have the unconditional right to defer settlement beyond 12 months, the liability is recognised as a current liability.

### PROVISIONS

Provisions are recognised when: The council has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one of item included in the same class of obligations may be small.

### INVENTORIES

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

### SIGNIFICANT ACCOUNTING POLICIES

### **KEY INFORMATION**

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.
